EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

SACRAMENTO, March 29, 1929.

*To the Senate of the State of California.*

Senate Bill No. 8 is herewith returned without my approval.

This bill was intended to prohibit the employment of children under school age from working in agricultural occupations during school hours. Through some error, however, the language as drawn either means nothing at all, or, if it means anything, would have exactly the opposite effect from what was obviously intended.

The author of the bill has written to me as follows:

"Thank you for calling to my attention the grammatical error that made a legal impossibility of Senate Bill No. 8. I think the purpose as sought under the bill is very worthy, but in the light of this error, the only suggestion I can make to you is that you veto this bill."

Accordingly, I have been forced to withhold approval of this bill, but am pleased to learn this morning that a new bill has been drawn correcting this defect, and that this bill will be introduced in the Assembly.

Respectfully submitted,

C. C. YOUNG, Governor.

#### COMMUNICATION.

The following communication was received, read, and ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, April 1, 1929.

Lieutenant Governor H. L. Carnahan,

State Capitol, Sacramento, California.

DEAR SIR: During the month of January it was our pleasure to have as guests in a series of flights in our airplane, "Standard of California," a number of the members of the State Senate. Due to inclement weather prevailing at that time, it was unfortunately necessary to discontinue the flights before all of the Senators had had an opportunity of flying.

So many of these gentlemen expressed their disappointment that we have now arranged to resume these flights on Wednesday and Thursday, April 3 and 4. The flights will be held from Mather Field between the hours of 10 and 12 each morning and 2.30 and 4.30 each afternoon.

In order to accomplish the flights with as little delay as possible, might we ask that you be so kind as to request the Sergeant-at-Arms of the Senate to ascertain from each member which day and approximately the hour as above indicated that would be most convenient for him to fly, in order that the personnel of the flights can as far as possible be booked in advance.

There are undoubtedly many members of the Senate who flew with us on previous flights who will desire to fly again, and we will be most happy to have them as our guests on this occasion. I might also add that the former invitation included the wives of the members of the Senate, and the present flight is intended also to include them.

To accommodate those members of the Senate who may not have their personal cars immediately available, we will arrange to have automobiles in front of the main entrance of the Capitol to leave one-half hour prior to the time set for the flights.

Yours very truly,

STANDARD OIL COMPANY OF CALIFORNIA.  
H. B. FAIRCCHILD, District Sales Manager.

#### PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal.

By Senator Merriam:

March 29, 1929.

WHEREAS, The California State Legislature is now in session and has before it Senate Bill No. 818, having for its purpose the amending of the Los Angeles County Flood Control Act; and

WHEREAS, Said amendments provide that each member of the county board of supervisors shall receive an annual salary of \$5,000 to be paid out of the tax fund of the flood control district; and

WHEREAS, The proposed salary would be in addition to the salary now paid to each member of the board of supervisors, for which the county charter provides that they shall devote all of their time during business hours to public service; and

WHEREAS, As a board of supervisors the administrative functions incident to the affairs of the flood control district, as required by the provisions of the Flood Control Act, are a part of the routine work incumbent upon them as members of the board of supervisors; and

WHEREAS, Irrespective of the question whether or not the salary of the board of supervisors should be increased, we do not believe the plan of increase which the proposed amendment provides should be adopted, for the reason that we question its legality if made effective during the term of office of the present board of supervisors, and, further, if allowed, that the policy of compensation for services performed in ex officio duties might be applied to other political entities with a consequent deterrent effect in their full-time duties as county supervisors: now, therefore, be it

*Resolved*, That the Los Angeles County Committee, California Taxpayers' Association, do hereby go on record as opposed to the enactment of Senate Bill No. 818 and urgently recommend to our legislative representatives that they oppose the passage of the proposed legislation.

The term "articles" includes the articles or certificate of incorporation or of association filed by the corporation with the secretary of state or proper official of the state, territory, or government, under the laws of which such corporation is created, and any amendments thereof, and any certificates supplemental thereto, and any charter, statute, or governmental act creating it, and any charter, statute or governmental act amendatory thereof or supplemental thereto.

No foreign corporation shall transact intrastate business in this state or enter into repeated and successive transactions of its business in this state, other than interstate or foreign commerce, until it has filed with the secretary of state a copy of its articles duly certified by the secretary of state or other proper official of the government under the laws of which it was created, together with a verified translation of any part thereof in a foreign language, and a statement setting forth:

- (1) The location of its principal office,
- (2) The location of its principal office within this state,
- (3) The name of some person residing within the state upon whom process directed to such corporation may be served, and his business or residence address,

which must be in the county in which the principal office of the corporation in this state is to be located.

Any designation of an agent for the purpose of service, heretofore or hereafter made, may be revoked by the filing by the corporation with the secretary of state of a writing stating such revocation and appointing a new agent. Process directed to such corporation may be served on the person so designated, or any managing or business agent of the corporation, or cashier or secretary, or in the event that the person so designated can not be found at the address given, with due diligence, and no managing or business agent or cashier or secretary of such corporation can be found after diligent search, then on the secretary of state. A copy of such designation, certified by the secretary of state, is sufficient evidence of the appointment of such agent for the service of process.

Whenever process against a foreign corporation is served upon the secretary of state such service shall be made by leaving at the office of the secretary of state duplicate copies of such process and paying the secretary of state a fee of five dollars, which shall be included in the taxable costs of such action or proceeding. Upon receipt of such process and fee the secretary of state shall forthwith give notice to the corporation by telegraph, charges prepaid, both to its principal or home office and to its principal office in the state, of the service of such process, and shall forward to each of such offices by registered mail, a copy of such process, whereupon service of such process upon such corporation shall be deemed to be complete and to be personal service upon such corporation. The certificate of the secretary of state, under his official seal, of such service shall be competent and sufficient proof thereof. The defendant shall appear and answer within thirty days after such mailing. The secretary of state shall keep a record of all process served upon him and shall record therein the time of such service and his action in respect thereto.

SEC. 3. Section 407 of the Civil Code is hereby amended to read as follows:

407. The requirements of this chapter as to foreign corporations shall not apply to corporations engaged solely in interstate or foreign commerce.

Any foreign corporation qualified to transact intrastate business in this state at the time this act becomes effective shall be deemed to be qualified under this chapter.

In addition to the penalty herein provided, no such foreign corporation shall maintain any action or proceedings concerning its property in this state, or any intrastate business or transaction in any court of this state until it has complied with this chapter.

Failure of any foreign corporation to comply with the requirements of this chapter shall not impair or affect the validity of any contract therewith, but no such corporation which should have so complied, shall maintain an action on any such contract in any of the courts of this state until it shall have become authorized to transact business in this state.

3. A post office address to which the secretary of state may mail a copy of any process against such corporation that may be served upon him.

The revocation of authority to transact business shall not affect any action pending at the time. The mere retirement from transacting business within this state without filing a certificate of withdrawal shall not revoke the appointment of any agent upon whom process may be served within this state.

Any person desiring to be a candidate at any election for trustees shall also file a statement under oath with the board which statement shall set forth the candidate's full name, address and that he is a freeholder and registered voter within the district and that he will not withdraw his name before the election. Sec. 8. For the purpose of constructing or purchasing necessary flood control works and acquiring the necessary property and rights therefor and otherwise carrying out the provisions of this act, the board of trustees must estimate and determine the amount of money necessary to be raised. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, the board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate. In the estimate of the amount necessary to be raised, the board of trustees may include a sum sufficient to pay the interest on the bonds to be issued for a period of three years or less. All such surveys, examinations, drawings and plans shall be made under the direction of the engineer of the district and shall be certified by him. After receiving such report the board of trustees shall determine and declare by resolution whether or not the proposed plan of works is satisfactory and whether or not the project, as set forth in said report, is feasible, and if so, shall make an order determining the amount of bonds that should be issued in order to raise the amount of money necessary therefor, and in determining said amount, sufficient shall be included to cover the cost of inspection of works in course of construction.

Prior to the calling of the bond election hereinafter referred to the board of trustees shall cause the entire district to be divided into zones, if in the opinion of the board of trustees such division is necessary because of varying benefits to the property within the district, together with a statement as to the percentages of the sum to be raised from each of such zones for the payment of the principal and interest of the bonds of the district. The said district may be divided into as many zones as may be deemed necessary and each zone shall be composed of and include all of the lands in the district which in the opinion of the board of trustees will be benefited in like manner. Upon the filing of such map, as in section 8 of this act provided, the board of trustees shall give notice to all persons interested in the district by publication in a newspaper of general circulation published in the district, once a week for three successive weeks, which notice shall designate the time and place of hearing by the board of trustees, at which time and place any person interested in the district may appear and object to the inclusion of his lands within the district or to the zones into which the district is divided, or to the percentages to be raised from each of such zones. All such objections shall be in writing, verified by the person or persons making the objection, and filed with the board of trustees on or before the date fixed for such hearing. Upon such hearing, the board of trustees may change or modify any of these zones or the percentages to be raised therefrom and may exclude any property from the district which in the opinion of the board of trustees will not be benefited. Such hearing may be continued from time to time by the board of trustees by an order entered on its minutes. The location and extent of the zones within the district and the percentages to be raised therefrom shall be finally established and determined by the board of trustees and shall prevail for all purposes until any bonds to be issued by the district shall have been fully paid and discharged. Findings and determination of the board of trustees as to the extent and boundaries of the zones and the percentages to be raised therefor shall be final and conclusive.

SEC. 8. Section 10 of said act is hereby amended to read as follows:

The resolution calling said special election shall state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor and shall fix the maximum rate of interest to be paid on said indebtedness which shall not exceed seven (7) per cent per annum, and shall fix the date on which said special election shall be held and the manner of voting for and against incurring such indebtedness.

For the purposes of said election, said board of trustees shall in said resolution establish election precincts within the boundaries of said district, and may form election precincts by consolidating the precincts established for general election purposes in said district to a number not exceeding six for each such bond election precinct, and shall designate a polling place and appoint two inspectors, two judges and two clerks for each of such precincts.

In all particulars not recited in such resolution, such election shall be held as nearly as practicable in conformity with the general election laws of the state.

At such election every person whose name appears on the last great register of the county within the district shall be entitled to vote thereat.

No further notice of such election need be given.

Any defect or irregularity in the proceedings prior to the election shall not affect the validity of the bonds.

If at such election a majority of the votes cast are in favor of incurring such bonded indebtedness, then bonds of said district for the amount stated in such proceedings shall be issued and sold as in this act provided.

The interest coupons of said bonds shall be numbered consecutively and signed by the treasurer of said district by his engraved or lithographed signature. In case any such officer whose signature or countersignature appears on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Any bonds thus purchased and held in any such sinking fund may from time to time be sold and the proceeds temporarily reinvested in bonds as above provided. The board of trustees of such district shall at the time for fixing the general tax levy for county purposes and in the manner of such general tax levy provided, levy and collect annually each year until said bonds are paid or until there shall be a sum in the treasury of such district set apart for that purpose to meet all sums coming due for principal and interest on said bonds, a tax sufficient to pay the annual interest on said bonds and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy; *provided, however*, if the maturity of the indebtedness created by the issuance of bonds be made to begin more than one year after the date of the issuance thereof, and such tax shall be levied and collected at the time and in the manner aforesaid, annually each year, in an amount sufficient to pay the interest on said indebtedness as it falls due and also to constitute a sinking fund for the redemption thereof on or before maturity. The tax herein required to be levied and collected shall be in addition to all other taxes levied for district purposes and shall be collected at the time and in the same manner as other district taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

Such tax shall be levied solely upon the lands within the district including any land which is the operative property of any public utility and excluding any lands belonging to any county municipality, or political subdivision within said district, or lands belonging to the State of California or the United States of America; *provided, however*, that nothing herein contained shall be deemed to exempt from assessment the lands of any political subdivision the corporate boundaries of which are wholly outside the boundaries of said district, and all such lands of any such political subdivision shall be subject to the taxes herein provided to be levied with the same force and effect as though such lands were held by private individuals.

If the district has been divided into zones and the percentage of the amount to be raised for the redemption of principal and interest of said bonds from each such zone has been determined as provided in this act, the said amount of said tax levied shall be divided according to said percentage, and the percentage to be raised from the lands within each zone shall be levied upon and against the property in such zone as hereinbefore provided.

The board of trustees may elect to avail itself of the assessment made by the assessor of the county of Sacramento and may take such assessment as the basis for district taxes and have its taxes collected by the county officials of such county; *provided*, the board of trustees shall declare its said election by resolution and file a certified copy of the same with the auditor of Sacramento County on or before the first day of August, and such board of trustees shall likewise file with such resolution a certified copy of the map or plat showing the zones and the percentages of the amount to be raised from each zone. Thereafter each year until otherwise provided by the board of trustees, all assessments shall be made and taxes collected for such district by the county assessor and tax collector, respectively, of said county of Sacramento. In such case, the auditor of such county must, on or before the second Monday of August of each year, transmit to the board of trustees of the district a statement in writing showing the total value of all property within the district, which value shall be ascertained from the assessment book of such county for that year as equalized and corrected by the board of supervisors of said county; and which said statement shall also show the total value of all property in each of the said zones respectively. In case the board of trustees shall so elect as hereinbefore provided, it shall, on or before the first week day in September, or if such week day falls upon a holiday, then upon the first business day thereafter, fix the rate of tax, and designate the number of cents upon each one hundred dollars using as a basis the value of property as it is assessed by the county assessor and returned to the board of trustees of the district by the county auditor as hereinabove provided, which rate of taxation shall be sufficient to raise the amount previously fixed by the board as hereinabove prescribed. Such acts by the board of trustees of the district shall constitute a valid assessment of the property and a valid levy of the tax so fixed. The board of trustees must immediately thereafter transmit to the county auditor a statement of the rate of taxes so fixed by said board for each zone into which the district may be divided and the county auditor shall enter such rate upon the county tax roll. Such taxes so levied shall be collected at the same time and in the same manner as county taxes and when collected the net amount ascertained as hereinafter provided shall be paid to the treasurer of the district under the general requirements and penalties provided by law for the settlement of other taxes.

Whenever any real property situate in said district has been sold for taxes and has been redeemed the money paid for such redemption shall be apportioned and paid by the county treasurer to the said district in the proportion which the tax due to said district bears to the total tax for which such property was sold.

All taxes levied under the provisions of this act shall be a lien upon the property on which they are levied and unless the board of trustees has by resolution otherwise provided the enforcement of the collection of such taxes shall be had in the same manner and by the same means as provided by law for the enforcement of the liens

for state and county taxes, all provisions of law relating to the enforcement of the latter being hereby made a part of this act.

The amount of compensation to be charged by and paid to the county for the performance of service, as in this section provided, for and on behalf of such district, shall be fixed by agreement between the board of supervisors of the county of Sacramento, and the board of trustees of the district: *provided, however*, that such compensation shall in no event exceed one-half of one per cent of all moneys collected for such district as in this act provided. The amount so collected by such county shall be placed to the credit of the county salary fund.

Wherever in this act the word "tax" is used, referring to the tax levied by the board of trustees of the district, the same shall be deemed and construed to be and to mean a special assessment as distinguished from a general tax.

SEC. 16. Section 18 of said act is hereby amended to read as follows:

SEC. 18. After the first bond election in said district, at which bonds shall be authorized by the electors of said district, as herein provided, the board of trustees of said district shall have power, in any year, to levy an assessment upon the taxable property in said district as set forth in section 17 hereof at the time and in the manner set forth therein, to carry out any of the objects or purposes of this act, and to pay the costs and expenses of maintaining, operating, extending and repairing any work or improvement of said district for the ensuing fiscal year, and said board of trustees shall have power to control and order the expenditures for said purposes of all revenue so derived: *provided*, that such assessments levied under this section for any one year shall not exceed ten cents on each one hundred dollars of the assessed valuation of the property in said district as said assessed valuation is shown on the last preceding assessment records for state, county and city purposes: *provided, further*, that such assessment shall be in addition to any assessment levied to meet the bonded indebtedness of said district and all interest thereon; *provided, further*, that if said district has been divided into zones, the taxes to be levied as provided in this section shall be apportioned in accordance with the zones established for the levying and collection of taxes to pay the principal and interest of the bonds of the district. Prior to said bond election, at which bonds shall be authorized as herein provided, the district shall have the right to incur indebtedness for organization purposes, preliminary engineering expenses and general incidental expenses as in this act specified, to an amount not exceeding twenty-five thousand dollars, said indebtedness to be evidenced by warrants of said district issued in payment of valid obligations incurred by said district, and which warrants shall be paid by the treasurer of the State of California on presentation of said warrants and their approval by the department of finance of the State of California. One-half of the moneys so advanced by the State of California, to wit: an amount not exceeding twelve thousand five hundred dollars, shall be repaid to the state by the said district by means of a general tax levy on all the property in said district levied and assessed for the fiscal year 1928-1929. There is hereby appropriated out of the funds in the state treasury, not otherwise appropriated, the sum of twenty-five thousand dollars for the purpose of carrying out the provisions of this section.

SEC. 17. A new section is hereby added to said act to be numbered 18a and to read as follows:

SEC. 18a. In addition to the indebtedness hereinbefore authorized to be incurred by the district, the district shall have the right, subject to the approval of the state department of finance to incur indebtedness for organization purposes, preliminary engineering expenses and general incidental expenses as in this act provided in an additional amount not to exceed the sum of twenty-five thousand dollars. The sum of twenty-five thousand dollars, in addition to the sums heretofore appropriated, is hereby appropriated out of the funds of the state treasury, not otherwise appropriated for the use of the board of trustees of said district in carrying out the provisions of this act and in defraying the expenses hereinabove in this section authorized. And the state controller is hereby directed to draw warrants upon the state treasurer payable out of said appropriation whenever drafts of said board of trustees duly approved by the state department of finance are presented to him, and the state treasurer is hereby directed to pay said controller's warrants.

All of the moneys hereinbefore in this section appropriated, to wit: the sum of twenty-five thousand dollars, together with one-half of the moneys heretofore appropriated in the year 1927 as provided by section 18 of this act shall be repaid to the state by the said district by means of a special tax levy on all property in said district levied and assessed for the fiscal year 1930-31. If, prior to the first day of July, 1930, a bond election has been held in said district, and bonds authorized, the said assessment shall be included in the general assessment of said district and collected with the other taxes levied and assessed in said district for the said fiscal year, and the amount due the State of California hereunder shall be paid by the trustees of the district to the treasurer of the county of Sacramento for the use of the State of California. If, prior to the said first day of July, 1930, bonds have not been authorized by the electors of said district, then the amount so due the state shall be added to the assessment roll of the county of Sacramento in the form of a special tax on all the property in said district, upon a certification from the state department of finance to the auditor of the county of Sacramento as to the amount so due the state by reason of any advances made by the state hereunder,

which tax shall be collected by the tax collector of the county of Sacramento and paid over to the state by said county.

SEC. 18. Section 19 of said act is hereby amended to read as follows:

Sec. 19. The boundaries of said district may be altered and additional area added thereto and the procedure set forth in the act of the Legislature of the State of California, entitled "An act to provide for the alteration of the boundaries of and for the annexation of territory to municipal corporations, for the incorporation of such annexed territory in and as a part thereof, and for the districting, government and municipal control of such annexed territory," approved June 11, 1913, and the amendments thereto, shall be followed as nearly as practicable, which provisions and the amendments thereto are hereby adopted as part of this act; *provided, however*, that no change in the boundaries of said district shall impair or affect its organization or its rights in or to property or any of its rights or privileges of whatsoever kind or nature, nor shall it affect, impair or discharge any contract, obligation, lien or charge for or upon which it was or might become liable or chargeable had such change of its boundaries not been made.

SEC. 19. Section 20 of said act is hereby amended to read as follows:

Sec. 20. In all work of improvement or repair of any of the works or property of the district and in the furnishing of materials or supplies therefor, when the expenditures required for the same exceed the sum of five hundred dollars, the same shall be done by contract, and shall be let to the lowest, responsible bidder, after notice by publication in a newspaper of general circulation published in the district for at least two insertions in a weekly or at least ten insertions in a daily newspaper and by posting such notice for at least five days at or near the door of the meeting place of the board of trustees prior to the date set for opening bids, such notices shall distinctly state the work contemplated and of the materials or supplies required; *provided*, the board of trustees may reject any and all bids presented and readvertise and post in their discretion; *and provided, further*, that said board may declare and determine that in its opinion the work in question may be performed more economically by day labor or the materials or supplies furnished at a lower price in the open market, and they may thereafter proceed to have the work done or the materials purchased without further observance of the foregoing provisions of this section; *and provided, further*, that in case of a great public calamity such as sudden fire, flood, storm, epidemic or act of God, the board of trustees may declare a state of great public emergency and proceed to have all necessary work done and materials and supplies furnished without further observance of the foregoing provisions of this section. Any work or improvement provided for in this act may be located, constructed and maintained in, along or across any railroad, public road or highway in the county of Sacramento, in such manner as to afford security for life and property, but the said board of trustees shall restore or cause to be restored such road or highway to its former state as near as may be, so as not to impair its usefulness.

SEC. 20. Section 21 of said act is hereby amended to read as follows:

Sec. 21. Whenever bonds have been issued by said district and said board of trustees shall have determined that the public interest or necessity of said district demand the issuance of additional bonds for carrying out the work or improvements of the district herein provided for, said board of trustees may again proceed as in this act provided, and have a report made and submit to the qualified voters of said district the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all of the provisions of this act (including the division of said district into zones) and for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

SEC. 21. Section 26 of said act is hereby repealed.

SEC. 22. A new section is hereby added to said act to be numbered 26 and to read as follows:

Sec. 26. The term "incidental expense" wherever used in this act shall mean and include all compensation for all clerical, engineering, legal, superintendence and inspection services, printing and advertising of all resolutions, notices, and other matter required herein to be printed, posted or published, costs and expenses of legal actions or proceedings, and also rental or purchase of real or personal property used in connection with such work and improvement or incidental thereto, during the progress of the work and improvement and proceedings thereunder and or otherwise.

SEC. 23. This act is hereby declared to be an urgency measure, deemed necessary for the immediate preservation of the public peace and safety within the meaning of section 1, article four, of the constitution of the State of California, and as such it shall take effect immediately.

The following is a statement of facts constituting such necessity:

The immediate prosecution of the work contemplated by this act is necessary for the early correction of the flood conditions which are now a yearly occurrence on the Sacramento and American rivers and which constitute a grave menace to the cities of Sacramento and North Sacramento and which should be obviated as

For the purposes of said election, the said trustees shall appoint from the property owners of the proposed district one inspector and two judges of election, who shall constitute a board of election of said district. Each member of the board of election must, upon entering upon his duties, be sworn to a faithful performance thereof by some officer authorized to administer oaths. The board of supervisors of the city and county of San Francisco may appropriate to the said trustees appointed by the governor as in this section provided, and cause to be paid to said trustees from the general fund of said city and county, an amount sufficient to defray the cost of obtaining the preliminary plans, specifications and estimates provided for in this section, and said sum or sums so appropriated shall be used for said purpose and for none other; *provided, moreover*, that this provision shall not be construed to prohibit appropriation by said city and county for a portion of the cost of said reclamation work.

(f) Recall. Any person elected to the office of trustee of said district, and who shall have held such office for at least six months, may be recalled from his office by the owners of more than one-half of the property in the district (measured by area). Said petition may be all on one sheet or on several separate sheets, and the

insufficiency of the form or substance of any statement therein contained shall not affect the validity thereof; *provided*, that said statement is sufficient to advise the property owners in said district of the reasons for said recall. Within sixty days after the filing of said petition or petitions, the trustees of said district shall call an election to be held at the principal place of business of the district, notice of which election shall be given by publication of a notice of said election in a newspaper of general circulation published in the city and county of San Francisco for at least once a week for four successive weeks. The call for and notice of said election shall specify the date on which and place at which said election shall be held and the hours during which votes may be cast, which shall be during at least eight consecutive hours on said date. At said election the owners of all property in said district shall have the right to vote; *provided*, if more than one person is the owner of any particular parcel of property said owners shall have the right to register but one vote at said election. The question submitted at said election shall be in the following form: "Shall ----- a trustee of the South Basin-South Basin canal reclamation district be removed from his office as such trustee?"

If at said election the owners of more than one-half of the property in said district (measured by area) shall vote in favor of the removal of said trustee or trustees, the office of said trustee or trustees shall be deemed vacant and an election shall be called and held to fill the vacancy or vacancies caused by said recall, in the same manner as for the original election of trustees for said district. If more than one trustee is to be recalled, separate petitions shall be filed for the recall of each, and the proposition for the recall of each shall be separately stated on any ballot used at said recall election, but all of said recalls may be voted on at any one election. In the event that said modification or change shall be rejected, the trustees shall within sixty days thereafter submit to the property owners the proposition whether or not further proceedings for the said reclamation shall be abandoned; and in the event that a vote representing more than fifty per cent of the area of said district shall be cast in favor of abandonment, no further proceedings whatsoever shall be had under this act, and this act shall forthwith cease to be operative for any purpose.

The said district shall have power to acquire by lease, purchase, agreement, condemnation or other legal means, all property, easements, rights of way and the right to take material for the construction of all works necessary for the accomplishment of its object, and the right to contract for all necessary labor, supplies, material and machinery and to lease or acquire by purchase, agreement, condemnation or other legal means, any works of reclamation, including drains, canals, sluices, bulkheads, water gates, levees, embankments and pumping plants which in the opinion of said board of trustees are or may be necessary to the general plan or plans decided upon by said trustees for the reclamation of said lands. At the hearing by the board of supervisors a certificate issued by the assessor of the county, and filed in the proceedings, stating that the name of any signer or signers of the petition appear upon the last equalized assessment roll of the county for land assessed to any such signer or signers, and located within the boundaries of the proposed harbor district, shall be prima facie evidence that such signer is a freeholder within the proposed harbor district, and a certificate signed by the county clerk or county registrar of voters that the name of any signer or signers of the petition is registered and uncanceled as an elector of the county, residing within the boundaries of the proposed harbor district shall be prima facie evidence that such signer or signers are registered voters within the proposed harbor district.

SEC. 6. The board of supervisors at the hearing shall have the right, power, and authority to change the exterior boundaries of the proposed harbor district by including therein such other contiguous lands as, in the judgment of the board of supervisors, will be benefited by the improvement or development of the harbor; *provided*, that no land shall be added to or included in the proposed harbor district until notice is given by the board of supervisors of such proposed addition or additions to the harbor district by publication of its intention so to do, and said notice shall contain the text of the original petition, a description of the additional lands intended to be included in the proposed district, and fixing the day, hour and place for owners of land within such proposed addition to appear before the board of supervisors and state their objections, if any, to such inclusion. Such notice shall be printed at least two weeks in a newspaper of general circulation within the county and printed and published therein.

SEC. 7. In any case where all of the lands intended to be included within the proposed harbor district as described in the petition are included within the territory of one or more municipalities, and no part of same includes unincorporated territory, then the petition, instead of being filed with the county clerk and ex officio clerk of the board of supervisors of the county, may be filed with the clerk of the city of one of the cities whose territory is included within such proposed harbor district, and the legislative body of such city in which said petition shall be filed shall have the same powers and issue the same notice and be authorized hereunder to the same extent and in the same manner as is provided for boards of supervisors.

This act shall not operate to divest in any manner or to any extent any existing harbor board or governing body of any existing harbor district of any authority or jurisdiction to act in relation to the harbors and properties now under the control or management of such harbor board or harbor authority without the consent of such board or other authority. However, in any case where the control or management of any portion of the shore line or tidelands of the Pacific ocean have been granted to any municipality by the state, then it shall be deemed within the power of such city under said legislative grant to permit the county or any other city within the proposed harbor district to assume jurisdiction hereunder to create,

improve, develop, operate or govern a harbor, including some or all of said shore line or tidelands under the provisions of this act, and the act of said city or cities in so acquiescing and permitting such control to be vested in the board of supervisors or some other municipality is hereby approved and the right so to do granted.

In any case where, under freeholders' charter, any city whose territory or a portion thereof is included within the proposed harbor district, and the management of whose harbor matters or affairs relating to the shore line or tide lands of the Pacific ocean forming a part of the exterior boundary line of such city is vested in a board of harbor commissioners or other governing body, then such city and such governing body is hereby authorized to permit the board of supervisors or legislative body of another city to do the things herein provided relative to the formation of harbor districts, and by so doing the control, after the creation of such harbor district, may properly vest in the governing body of such harbor district rather than in the governing body of the charter city relinquishing its powers to administer such harbor or such harbor district. But nothing herein contained shall authorize any constituted harbor authority to relinquish the control or management of any harbor actually operating as such.

Before the board of supervisors of the county or the legislative body of any city within the proposed harbor district may conduct the hearing of any petition filed under this act, there must be on file in the office of the clerk of such board or clerk of said city, a resolution of the legislative body of the city or cities whose territory, or a portion thereof, is included within the proposed harbor district, reciting that a copy of the petition, identifying same, has been filed in its records, that it has been considered and that said legislative body requests the board of supervisors to act upon said petition and consenting to the jurisdiction of said board so to act in behalf of the city represented by said legislative body. The board of supervisors shall not act to fix a time and place for hearing the petition until resolutions, as provided above, are filed in the office of the county clerk and ex officio clerk of the board.

SEC. 8. The board of supervisors shall also investigate and determine whether or not the improvement or development work generally described in the petition is feasible and when completed will result in the improvement or development of the harbor, and whether the estimated cost thereof and the incidental expenses in connection therewith is the reasonable and necessary cost of such improvement or development work and incidental expenses, and for the purpose of such investigation and determination may submit the improvement or development work described in the petition to engineers for examination and report.

If it shall appear and the board of supervisors find that it is necessary in order to make sufficient and adequate examination upon which to determine such questions to continue the hearing beyond ninety days, the board of supervisors shall have power for the purposes of such investigation to continue the hearing for such a period of time as the board of supervisors may see fit, not longer, however, than six months from the date of the presentation of the petition. The board of supervisors shall not be bound by the improvement or development work described in the petition, or by the estimated cost thereof set forth, but may find that other, different, or a less amount of improvement or development work should be done, and the estimated cost thereof and of the incidental expenses in connection therewith.

SEC. 9. Upon final hearing, if it shall appear to the board of supervisors that the petition and notice of hearing has been duly published, and that the petition is signed by a sufficient number of persons who possess the qualifications in this act required, and that a harbor exists or may be created within the county, some portion of which is contained within the exterior boundaries set forth in the petition, and can be improved and developed as generally described in the petition, and at a cost not disproportionate to the benefit to be derived from such improvement and development, and that such improvement or development has the approval of the legislative bodies of every city whose territory or a portion thereof is included within the proposed harbor district, and such legislative bodies in witness thereof have filed a resolution or resolutions in accordance with the provisions thereof, as hereinbefore provided, then the board of supervisors shall cause to be entered upon the minutes of such meeting a finding of all such facts, setting forth the name of the proposed harbor district, as set forth in the petition, the official name or name by which such harbor is or shall be commonly known, and describing the exterior boundaries of the territory to be included within the proposed district, as originally set forth in the petition, or as the boundaries thereof may have been changed by the inclusion or exclusion of lands; the improvement or development work to be done and the estimated cost, and of the incidental expenses in connection therewith. Said findings shall be conclusive evidence of the existence of every fact so found by the board of supervisors and of the due signing and publication of the petition and of the publication or personal service of all prior notices, and shall vest the board of supervisors with authority to proceed under this act.

SEC. 10. The board of supervisors shall thereupon make and cause to be entered in said minutes an order finally determining and establishing the exterior boundaries of the district, the improvement or development work to be done in such harbor, and the estimated cost thereof, and of the incidental expenses in connection therewith, and shall pass a resolution calling an election therein for the purpose of sub-

mitting to the qualified voters thereof the proposition of the formation of the harbor district and incurring a bonded debt and the issuance and sale of the bonds thereof to pay the cost of the improvement or development work in a sum not greater than the estimated cost thereof, and of the incidental expenses in connection therewith, as found by the board of supervisors. The board of supervisors shall by said resolution fix the date of the election which shall be not less than thirty days nor more than sixty days after the date of the passage of the resolution, and shall subdivide the district into one or more voting precincts and generally describe the boundaries of each voting precinct, and shall designate a place within each voting precinct at which the polls will be opened for the purpose of the election on the date of the election, and shall also appoint a board of election for each voting precinct, consisting of one inspector, one judge, and one clerk. Every member of a board of election must be a registered elector of and reside within the voting precinct for which he or she is appointed. The resolution shall state the object and purposes for which the indebtedness is proposed to be incurred and the amount of the principal of the indebtedness, and shall recite a maximum rate of interest to be paid on such indebtedness, not exceeding seven per cent per annum, and which shall be paid semiannually, and which rate of interest shall not be exceeded in the bonds issued for such purpose, and shall also recite that under the terms of this act, assessment zones or zone shall be determined by competent authority fixing the proportionate rates to be paid on such bonds each year by each assessment zone, according to the benefits found by said authority to be enjoyed by each of such zones provided said authority shall determine that there are such varying benefits within the harbor district, and said resolution shall further state that all assessments shall be based upon the assessed value of the lands within the harbor district or proposed harbor district, and that the improvements thereon shall not be assessed or charged or taxed on account of said bonds or harbor improvement. The resolution shall also prescribe the manner of voting for or against the incurring of the indebtedness and for or against the formation of the harbor district, and in all particulars not recited in the resolution or as otherwise provided for in this act, the election shall be held in accordance with the general election law of the state, so far as the same is applicable; *provided*, that it shall not be necessary to mail or send out sample ballots or precinct polling cards.

SEC. 11. The resolution shall invite the qualified voters residing in the harbor district to vote upon the proposition by stamping a cross (x) on the ballot opposite the proposition of the formation of the harbor district and of the incurring of indebtedness thereby.

The ballot to be used at the election shall be substantially in the following form:

#### HARBOR DISTRICT.

##### Official Ballot.

Instructions to voters: To vote in favor of the formation of the harbor district and the incurring of the indebtedness thereby, stamp a cross (x) in the voting square at the right of the words "For the harbor district."

To vote against the formation of the harbor district and the incurring of the indebtedness thereby stamp a cross (x) in the voting square at the right of the words "Against the harbor district."

All erasures and distinguishing marks are forbidden and make the ballot void. If you wrongly stamp, tear, or deface this ballot, return it to the inspector of election and obtain another.

##### Proposition.

"For the harbor district" (here set forth a general statement of the objects and purposes for which the indebtedness is to be incurred, and the amount of the indebtedness).

"Against the harbor district" (here set forth a general statement of the objects and purposes for which the indebtedness is to be incurred and the amount of the indebtedness).

SEC. 12. The resolution calling the election shall be published seven times in a newspaper of general circulation printed, published, and circulated within the harbor district at least six days a week, or if there be no newspaper published therein at least six days a week, then the resolution shall be published twice in a weekly or semiweekly newspaper published within the harbor district. The passage of the resolution and the publication thereof, as provided for in this section, shall be and constitute the notice of election and no other or additional notice thereof need be given.

SEC. 13. On the day of the election the polls at each of the polling places designated by the board of supervisors shall be opened at the hour of six o'clock a.m. and must be kept opened until the hour of seven o'clock p.m. of the same day, when the polls shall be closed; *provided*, that any elector within the polling place or standing in line thereat, and who has not had an opportunity to vote and desires to vote, shall be permitted to vote after the hour of seven o'clock p.m. of the day of election.

When the polls are closed, the board of election in each precinct shall canvass the votes thereat, make up and certify the returns thereof as near as practicable in accordance with the election laws of the State of California governing general elections and deposit the same with the county clerk of the county in which the election was held.

SEC. 14. The board of supervisors at their first regular meeting after the date of the election shall canvass all of the returns of the election, and shall cause to be entered upon the minutes of said meeting a finding showing the number of votes cast in each voting precinct for the harbor district and the incurring of the indebtedness, and the number of votes cast against the harbor district and the incurring of the indebtedness, and the total number of votes cast in all the voting precincts for and against the harbor district and the incurring of the indebtedness.

If from said canvass it shall appear and the board of supervisors find that a majority of the votes were not cast for the harbor district and the incurring of indebtedness thereby, it shall enter that fact upon its minutes, and no further proceedings shall be taken under said petition; *provided*, that a new petition and notice may be signed, published, and filed and a new proceeding had thereunder pursuant to this act at the expiration of one year from the date of the election.

If from said canvass it shall appear and the board of supervisors find that a majority of the votes cast at the election were cast for the harbor district and the incurring of the indebtedness thereby, it shall cause that fact to be entered upon the minutes, together with a description of the boundaries of the harbor district, the name of the harbor district, and the official name or names by which said harbor district is or shall be commonly known, and enter an order of the board of supervisors declaring such harbor district to be duly formed, and to exist in the county in which the proceedings were had, and that an indebtedness of said harbor district is authorized in the principal sum specified, to pay the cost of making the improvement or development of such harbor, as set forth in the resolution.

SEC. 15. The clerk of the board of supervisors shall thereupon immediately make up and certify a copy of said minutes and order and transmit the same to the secretary of state of the State of California.

It is hereby made the official duty of the secretary of state to file said certificate in his office, and within five days thereafter to execute under the great seal of the State of California, and transmit to the clerk of the county in which the proceedings were had, his certificate that a harbor district under the name set forth in the petition has been formed and exists in said county. The clerk of the county shall file such certificate in his office and from the filing of such certificate of the secretary of state in the office of the county clerk, the formation of the harbor district shall be complete, with an authorized indebtedness in the sum specified in the resolution calling the election, and no action or proceeding of any character shall be thereafter maintained or prosecuted in any court whatever to test or to invalidate the formation of the district or the authorized indebtedness thereof unless the same shall be commenced in a court of competent jurisdiction within sixty days after the date of the filing of the certificate of the secretary of state in the office of the county clerk.

SEC. 16. The board of supervisors shall pass a resolution providing for the issuance and sale of bonds to represent the principal of the indebtedness authorized to pay the cost of the improvement or development work in such harbor, and shall prescribe the form of such bonds.

SEC. 17. All bonds issued under this act shall be payable substantially in the following manner: A part to be determined by the board of supervisors, which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be paid each and every year on a day and date, and at a place or places to be fixed by the board of supervisors, and designated in the bonds, together with interest on all sums unpaid at such date.

The bonds shall be issued in such denominations as the board of supervisors of the county may determine, except that no bond shall be of a less denomination than one hundred dollars, nor of a greater denomination than one thousand dollars, and shall be payable on the date and at the place or places fixed in such bond, and with interest at the rate specified in the bond, which interest shall not exceed the sum of seven per cent per annum and shall be payable semiannually.

The bonds shall be signed by the chairman of the board of supervisors, and also signed by the treasurer of the county, and shall be countersigned by the auditor thereof. If proceedings are had hereunto by the legislative body of a municipality within the harbor district, then said bonds shall be signed by the presiding officer of the legislative body of such city, and by the mayor of said city, provided said presiding officer is not also ex officio such mayor, and by the treasurer of said city. The coupons upon said bonds shall be numbered consecutively and signed by the county treasurer or if issued by a city, then by the treasurer of said city. In case any of such officers whose signature or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes, the same as if they had remained in office until delivery of the bonds.

SEC. 18. All such bonds may be issued and sold by the board of supervisors of the county as they may determine, but for not less than their par value and the interest accrued thereon at the date of their delivery, and the proceeds of such bonds shall be placed in the treasury of the county to the credit of the proper improvement fund, and shall be applied exclusively to the purposes and objects mentioned in the resolution and for which the same was voted.

SEC. 19. Whenever the money for which the indebtedness was incurred shall be in the treasury of the county, certification of the fact shall be made by the county treasurer to the county clerk and ex officio clerk of the board of supervisors and to

the county auditor. Thereupon, a board of governors of the harbor district shall be appointed, which board shall consist of three members. Each governor shall be a citizen of the State of California, residing within the harbor district and shall have so resided therein for a period of at least one year immediately preceding the date of his appointment or election. Said first board of governors shall be appointed as follows: One member by the governor of the State of California and the two other members by the board of supervisors.

The said board of governors so appointed shall hold office for the respective terms of six, four and two years from and after the date of the next general election held within the State of California after their appointment and until their successors have been elected and qualify, and the respective terms of the said members shall be decided by lot amongst them. The offices of the members of the board of governors as same expire shall be filled by election within the harbor district and such election shall be had in the manner provided by general law, and candidates for said office shall be presented for consideration at the primary election held within the State of California every two years, by nominating petitions prepared, presented, signed and filed as provided by law. Said nominating petitions shall contain the names of at least one per cent and not more than five per cent of the whole number of qualified electors within the harbor district registered thirty days prior to the last day for filing nominating petitions, and the two persons polling the greater number of votes at said primary election shall be nominated for the position and at the next general election held within the State of California thereafter, the one of said candidates receiving the highest number of votes shall be declared elected, and said election shall be for the term of six years. If there be but two candidates for the office at the primary election then the candidate receiving the majority of votes at said primary election shall be declared elected. In the event of a vacancy occurring in the office of member of the board of governors, said vacancy shall be filled by appointment by the board of supervisors, which said appointee shall hold office until his successor is elected at the next regular primary or general election and has qualified.

SEC. 20. The said board of governors shall serve without compensation and shall qualify for the office by having the oath of office administered to each of them singly by the county clerk and ex officio clerk of the board of supervisors, which said oath shall be as follows: "I do solemnly swear that I will well and truly perform the duties of a member of the board of governors of the harbor district in accordance with the constitution and laws of the State of California to the best of my ability, so help me God."

SEC. 21. Said board of governors shall choose one of its members as chairman and shall appoint a regular time and place for meetings, which said meetings shall be public and shall not occur less frequently than one meeting in each calendar month.

SEC. 22. The board of governors shall employ a clerk whose duty it shall be to keep a record of all the proceedings of said board, to execute the necessary contracts and/or other public records and documents relative to the business of the harbor district, and in attestation of the action of the board of governors, and said clerk shall maintain said records in the usual and designated meeting place of the board and have the custody and charge thereof and be responsible therefor, and during business hours shall, upon demand of any person or persons, permit the inspection thereof.

SEC. 23. Said board of governors shall appoint an engineer who shall be in charge of all technical work to be done in and about the construction and/or improvement and maintenance of the harbor and the works adjacent and appurtenant thereto. Said engineer shall hold office at the pleasure of the board and his compensation shall be fixed by said board and paid in monthly installments.

SEC. 24. Said board of governors may appoint an attorney to act as its legal adviser, or if it desires so to do, request the county counsel of the county wherein the harbor district is situate, if there be such county counsel, to act as its legal adviser. In the event of the appointment of an attorney for the board, his compensation shall be fixed by the board and paid in monthly installments, and said attorney shall hold his office at the pleasure of the board.

SEC. 25. Such assistants may be authorized and provided by the board of governors for the clerk, engineer and attorney as may be required and the cost thereof, as well as the respective salaries of said clerk, engineer and attorney, shall be a charge against the funds of the harbor district.

SEC. 26. All of the funds of said harbor district shall be deposited in the treasury of the county and disbursed by the treasurer thereof upon requisition signed by the chairman of the board of governors, attested by the clerk, and approved by the county auditor; and the county auditor shall, on or before the tenth day of each and every calendar month, transmit to the clerk of the board of governors of the harbor district a statement of the balances in said fund and the different accounts thereof, and all moneys received from the operation of the said harbor or works adjacent or appurtenant thereto by the board of governors shall, on or before the tenth day of each calendar month succeeding the date of such collection, be accounted for and paid into the harbor district fund so held by the county treasurer.

The clerk of the board of governors shall be the official collection agent for all of said moneys so received from the operations of said harbor district, and shall give bond for the faithful performance of his duties as such collection and accounting agent in a sum to be fixed and adjusted from time to time by the board of governors.

SEC. 27. Special meetings of the board of governors may be held on call of the chairman or upon call of the other two members of the board of governors.

SEC. 28. The first duty of the board of governors after the organization of the board shall be to have prepared an authentic map showing the whole harbor district to be assessed for the cost of said improvement. Said map shall show portion or portions of said district which will be benefited to a greater or less extent than the other portion or portions by said improvement, and the ratio of said benefit shall be determined and each such zone so delineated upon said map as a portion of the harbor district shall show the amount which, in the opinion of said board of governors, each of said zones should pay for the improvement, and said amounts so fixed for each zone in said harbor district shall bear the same proportion to the whole cost of the bonded indebtedness of the district as the proportionate benefits enjoyed by said zone bears to the benefits accruing to the whole harbor district, and for the purpose of this computation said total benefits shall be considered to be one hundred per cent to the whole district, and the benefits to each separate zone therein delimited shall be some percentage porportion of said one hundred per cent.

The said assessment map showing the zones, amounts, proportions and percentages, as above, with accompanying explanations thereof, so that the same may be understood, shall be kept on file in the office of the clerk of the board of governors, and open to inspection by the public at all times. A full, true and correct copy thereof shall be filed in the office of the city clerk of each city any portion of whose territory is within the said harbor district, and a copy shall also be filed in the office of the county clerk of the county in which said harbor district is located. Notice of the filing of said map shall be published once in a newspaper of general circulation within the harbor district.

Said notice shall recite the fact of the filing of said map; inform the public where the original and copies of said map may be inspected, and also fix a time for the filing of objections and protests to any part thereof or assessment zone therein fixed.

The time for filing said objections and protests will be not less than three weeks nor more than five weeks after the date of the first publication of the notice of the filing of the assessment map, and said notice shall recite the day, hour and place when such protests will be heard. All such protests and objections shall be in writing.

At the time and place fixed for the hearing of said protests and objections, said protests and objections shall be read to the board and considered by them and as the result of said hearing, said board of governors may amend in any manner their assessment zones and proportions theretofore fixed and after said hearing any action of the board of governors taken as a result thereof shall be final and conclusive upon the harbor district and each and every assessment zone therein fixed, and such action by said board of governors shall be a judicial determination by them as such board that the proportionate cost of the work charged against each zone in the harbor district is the fair proportion which such zone should be so charged and fairly represents the proportionate benefits which said zone will enjoy of the whole improvement.

The assessment map as originally filed showing the respective zones within said district shall be prepared and authorized in accordance with a resolution of the board of governors directing the preparation of same, and in said resolution there shall be described the boundaries of the respective zones within said harbor district, and as to each of such zones, said resolution shall state the proportionate benefit enjoyed by each zone on account of the whole improvement and the proportion of the cost of the whole improvement which each zone should bear.

After the hearing of all protests in accordance with the preceding provisions, the board of governors, if it desires to amend the original resolution, shall do so by assigning to the respective zones within the harbor district the amount each will be proportionately benefited by the whole improvement and the amount which each zone should pay for the cost thereof, and thereupon a conclusive assessment map showing the zones shall be prepared and a copy thereof filed in the office of the clerk of the board of governors, and two additional copies thereof signed by the chairman of the board of governors and attested by the clerk of said board, one of which said copies shall be filed in the office of the assessor of the county within which the harbor district is located and the other in the office of the county recorder of said county.

Said maps as so filed, shall be accompanied by authenticated, verified copies of the final resolution fixing the assessment zones within the harbor district, as hereinbefore provided, and said copies as so filed shall be conclusive records and the one filed in the office of the county assessor shall be and constitute a direction to him of the proportions to be annually charged upon the tax bills of lands located within the several zones in the said harbor district, to meet the annual bond and maintenance charge requirements of the harbor district, and the copy filed in the office

of the county recorder shall be constructive notice of the fact of the proportionate charges assessed against property within the said zones in said harbor district.

Sec. 29. No contract shall be let nor any commitment or obligation incurred as a charge against said harbor district excepting the office expenses and salaries for the clerk, the engineer and the attorney and their assistants unless and until the definitive assessment map showing the several assessment zones within the harbor district shall have been prepared, reviewed and finally approved and filed, in accordance with the preceding section.

Sec. 30. The board of governors shall be permitted their actual expenses incurred in the performance of their duties as such, and prior to the collection of same from the harbor district, vouchers therefor shall be presented to the whole board of governors and approved by them, but in no instance shall the expenses incurred by any member of the board of governors exceed in any one year the sum of three hundred dollars (\$300.00).

Sec. 31. The board of governors is authorized to employ and pay for the preparation of definitive plans, profiles and specifications for the doing of the work provided to be done under the bond issue and shall advertise for bids and let contracts for the doing of said work. All work done under this act shall be done by contract let to the lowest regular responsible bidder or bidders, and advertisement for bids for contracts shall provide for the day, hour and place for the opening of same and recite that each bid shall be accompanied with a deposit of a certified check or bond equal to at least ten per cent of the amount of the bid, guaranteeing that when and if a contract is awarded to such bidder, he will execute the necessary contract and surety bonds for the performance of the work so bid for. The board of governors, however, need not advertise for the doing of all of the work under the same contract but may segregate the work to be done thereunder and call for separate bids therefor, and fix the order in which the said work shall be done and if by reason of any proceeding or occurrence the board of governors shall be prevented or enjoined from doing any particular portion of the work required to be done, then the board may proceed to do all or any of the other work not so prevented or enjoined.

All contracts shall first be approved by the engineer of the board of governors and by the legal adviser of said board and shall recite that the harbor district, acting by and through authority of the board of governors thereof is party of the first part and the contractor is party of the second part, and the contractor, at the time of executing any contract hereunder, shall execute a bond to the satisfaction and approval of the board of governors running to the harbor district, in an amount not less than twenty-five per cent of the amount of the contract, conditioned for the faithful performance of the contract, and said bond shall be signed by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned in the bond over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety, and every contractor to whom is awarded any contract hereunder shall, before executing said contract, furnish and file with the board of governors a good and sufficient bond acceptable to and approved by said board of governors in a sum not less than one-half of the total amount payable by the terms of said contract; such bond shall be executed by the principal and by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned in the bond, over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety, and shall be made to inure to the benefit of any and all persons, companies, or corporations who perform labor on or furnish materials to be used in the work or improvement to be done under the contract, and shall provide that if the contractor to whom said contract was awarded fails to pay for any materials so furnished for the said work or improvement or for any work or labor done thereon of any kind, the sureties will pay the same, to an amount not exceeding the sum specified in said bond. Any laborer, materialman, person, company or corporation furnishing materials to be used in the performance of said work or improvement or who performed work or labor thereon, whose claim has not been paid by the said contractor or his assigns, shall severally have a first lien upon and against the money to be paid to cover the expenses of said work or improvement. Such laborer, materialman, person, company or corporation may, at any time prior to the payment of said money, file with the clerk of the board of governors of the harbor district and with the county treasurer a verified statement of the fact that he or it has furnished such labor or material and has not been paid therefor, stating the nature and amount of such labor or material and the amount due therefor, and claiming said amount, and, if he or they so elect, demanding the withholding of money in an amount sufficient to satisfy said claim.

The said treasurer shall, upon such a demand being made, withhold from the contractor or anyone claiming under him as assignee or otherwise, sufficient of said moneys to satisfy said claim and all costs which can reasonably be anticipated. If the claimant filing such statement shall, within ninety days after the date of issuance of the completion and acceptance notice of the contract work, commence an action to enforce his lien aforesaid, then said treasurer shall withhold and keep the moneys so

withheld, subject to final judgment in said action; but if such action is not so filed, the moneys so withheld shall be delivered to the contractor or his assignee. Such claimant, if he so elects and if he has not received said moneys, may as an alternative, at any time within six months after the filing of such statement and claim bring an action upon the bond of the surety or sureties in his own name, or if he has assigned his claim, the action may be brought in the name of the assignee, for the recovery of the amount due on said claim. Said amount, both in the case of an action to enforce the lien upon said moneys withheld and in the case of an action upon the bond of the surety, may include the costs incurred in said action, together with a reasonable attorney's fee to be fixed by the court for the prosecution thereof.

If the contractor or his assigns shall so desire, upon the filing of any claim or claims as aforesaid by any laborer or materialman, he or they may furnish and file an undertaking in an amount to be fixed by the said treasurer (but which amount shall not be less than the aggregate of the claim or claims, plus not less than fifteen per cent of said amount to cover court costs and attorneys' fees), which said undertaking shall be executed by said contractor or his assigns and by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned therein, over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety, which said undertaking shall be to the satisfaction of said treasurer and shall provide that the said contractor or his assigns and the surety or sureties thereon will pay the amount, if any, which may be due on said claim or claims, with interest, court costs and attorneys' fees; whereupon said first lien upon and against said monies shall be discharged and said claimant shall thereupon look to said undertaking for recovery.

SEC. 32. Harbors created or improved under the provisions of this act shall be either recreational or commercial or recreational and commercial harbors, and their several definitions are as follows:

Recreational harbors are such as are intended to be used for the pleasure and recreation of the public, including as well as all others the boating, fishing and bathing facilities afforded thereby and no industrial or commercial activity shall be permitted on any pier, wharf, jetty, breakwater or portion of the strand comprising said harbor, or upon any works or property adjacent or appurtenant thereto excepting that, under the supervision of the board of governors of the harbor district, such commercial enterprises may be conducted as in the opinion of said board of harbor governors will be conducive to and aid the pleasure and recreational facilities of the people in their use thereof.

Commercial harbors shall be harbors in which any shipping activity may be conducted in accordance with law and in the vicinity and on the property of which any industry may be conducted not otherwise prohibited.

SEC. 33. The petition for the creation of a harbor district under this act shall provide, as hereinbefore contained, the classification of said harbor, whether the same be recreational or commercial or recreational and commercial, and the board of governors shall be and are hereby empowered to adopt and enforce ordinances protecting the character of the harbor and works placed under its control and to safeguard the classification thereof. Said board shall also have authority to adopt ordinances regulating the said harbor and appurtenances and works and its use, and to adopt reasonable rules and regulations in reference thereto and to provide in said ordinances that any violation of such ordinances shall be a misdemeanor and punishable by fine or imprisonment to be fixed by said board in said ordinances, or by both such fine and imprisonment. Said ordinances shall be enforceable as are ordinances of municipalities within the State of California and shall have the same binding force and effect as such city ordinances.

SEC. 34. The board of governors shall appoint a harbor manager who shall be charged with the custody of the harbor and the enforcement of the ordinances, rules and regulations of the board of governors, and said board of governors shall have authority to provide such assistants for said harbor manager as may be required and the cost of said management shall be a charge against said harbor district. Nothing in this act shall prevent or interfere with the usual police control to be exercised in and about said harbor and works by the county or city in which the same is located, but the ordinances and rules and regulations which the board of governors of said harbor district are hereby authorized to adopt and enforce shall be such only as are regulatory of said harbor and works and the use of same.

SEC. 35. The board of governors shall be authorized to lease for any period not exceeding the term provided by law any lands, works or facilities under its control to be used for purposes related to the harbor, and which, in the opinion of said board of governors, will promote the purposes of the said harbor and extend its use and enjoyment by the people, and may issue licenses and permits for privileges to be exercised in and about said harbor upon equal terms, and all the revenue arising from said leases, licenses and permits shall be accounted for and paid into the harbor district funds. Said board of governors may fix a schedule of docking, anchorage and storing fees and charges, which fees and charges shall be equal in their operation and fair and reasonable.

SEC. 36. The board of governors shall have power to acquire such lands as in its opinion will be necessary or proper for the creation, improvement, government or operation of the harbor, and the determination by resolution of the board of gov-

ernors that the lands described therein are necessary or proper for the creation, improvement, government or operation of said harbor shall be conclusive. The board of governors may acquire said lands so provided to be acquired by said resolution by agreement with the owner or owners thereof, which said agreement before the same shall be effective, shall be approved by a judge of the superior court of the county within which the harbor district is located, and in the application for the approval of any such agreement or agreements, the board of governors shall present to said court the appraisal of the lands so to be acquired by said agreement or agreements, and said appraisal shall be made by any three competent and responsible appraisers of real property within the county, and said court may, before approving or disapproving the said agreement or agreements, call in another or other appraisers of its own choosing. In the event that the board of governors and the owner or owners of the property intended to be acquired can not agree upon the price or terms upon which said lands so required shall be purchased by the harbor district, or in the event that the superior court will not approve any agreement or agreements between said board and the owner or owners of said property, then and in that event, the board of governors shall institute an action in the superior court of the State of California, in and for the county in which said harbor district is situated, in the name of the harbor district as party plaintiff, naming as defendants the owners of and all persons interested in the lands sought to be acquired. Said action shall recite the passage of the resolution under which said board proceeded to acquire said lands and shall allege the fact that the acquisition of said lands is necessary or proper for the creation, improvement, government, operation or enjoyment of the harbor; and in this particular, it is herein provided that as to recreational or commercial and recreational harbors, land for bathing and park use in or near any portion of the shore of the Pacific ocean or any bay or estuary thereof may be acquired for the recreation of the public, and that such park purpose is a proper purpose under this act.

Said complaint shall request that the court fix the amount required to be paid to the owners of said land therefor and for any damages incurred by such owners on account of the said taking, and at any time within six months after the judgment or verdict rendered in said case or within six months from the date of the final judgment, if an appeal has been taken therefrom, the board of governors of the district may pay to such owner or owners or deposit in court for their account the amount fixed by said judgment and required to be paid for said lands with interest thereon from date of judgment at the rate of seven per cent per annum and thereafter same shall be the property of the harbor district. However, should the board of governors deem it necessary or advisable to obtain immediate possession of the lands sought to be taken under said proceedings, then upon the filing of the complaint, as hereinbefore provided (which said complaint shall recite such necessity for immediately taking possession of said lands), the court shall appoint three competent responsible appraisers of real property within the county who shall appraise the lands sought to be taken and, in addition thereto, consider and fix the damages which the owner of said land is likely to incur on account of such taking, and they shall make their report to the superior court of the county. The superior court shall thereupon determine tentatively and for the purpose of fixing the surties to be given, the value of the lands sought to be taken, and, in addition thereto, the damages which the owner thereof will be likely to suffer on account of such taking and the board of governors may thereupon deposit in the office of the clerk of the court a sum equal to the said value and damages as so fixed by the court, and upon payment of said money into court the board of governors may thereupon take possession of the lands described in the complaint.

The preliminary fixing of values and damages as hereinbefore provided, prior to the trial of the issues, shall not be conclusive upon the owner of the lands taken when the cause is tried to determine the value of the lands taken and damages, if any, suffered by the owner on account of such taking, and such owner may require that the judge presiding at said trial shall not be the same judge who fixed the value and damages tentatively in the preliminary proceeding.

For the purpose of this section, the board of governors is authorized to draw a requisition upon the harbor district funds in the county treasury for the purpose of making the deposits required to be made hereunder in order to obtain possession of lands sought to be taken in advance of a determination as the result of the trial of the question of such value or damages. At any time after the moneys have been deposited in court, as provided herein, in advance of a trial, the owner of the lands possession of which is immediately sought, may accept the moneys so deposited in court by the harbor district in full satisfaction of all claims for the value of said lands and damages suffered by such owner on account of the taking thereof, and thereupon the proceeding to acquire said lands by court action shall be determined and the rights of the parties fixed and foreclosed.

Among other things, the complaint shall state the effect of the resolution ordering the acquisition but need not set up any other proceedings had or taken before the bringing of the action. Said resolutions shall be conclusive evidence, in such action, of the public necessity of the proposed acquisition and the improvement thereby effected, and that the property sought to be condemned is necessary therefor, and also that the same is located in the manner which will be most compatible with

the greatest public good and the least private injury; and, in the event that immediate possession of any lands sought to be taken is stated in the resolution of the board of governors ordering the acquisition to be necessary, then such statement of necessity shall be likewise conclusive.

SEC. 36. The board of governors may from time to time determine that additional funds should be provided by the issuance of bonds for extensions or additions or improvements to the harbor or works created hereunder, and in that event, may call elections within the harbor district for the purpose of deciding whether or not such additional expenses should be incurred and bonds voted to pay therefor. The resolution calling for such election shall recite the purposes for which said moneys are intended to be used, generally describing the work to be done, the property to be acquired and the probable cost thereof. Bonds shall provide for their retirement within a period of forty years from date and shall bear interest at a rate not in excess of seven per cent per annum, said interest to be payable semiannually. The bonds shall be payable in the same manner as is provided for the payment of the bonds to be originally issued hereunder. A call for said election within said district shall be published at least once for two successive weeks in a newspaper of general circulation within the harbor district and no further or other notice of said election shall be given, nor need any sample ballot be mailed to any of the electors within said district.

Election shall be held at a time not sooner than thirty days after the last publication of the election notice and the form of the ballot shall be substantially the same form as is provided to be used hereunder for the original election on bond issue within said district. When and if bonds are voted and authorized by the electors within the district, same shall be a charge against the land in said harbor district and not a charge against any of the improvements therein and shall be paid in the same proportions as fixed by the assessment zones theretofore filed in accordance with the provisions of this act and relating to the original bond issue. The vote at said bond election shall be canvassed as is provided for in such original election to be held hereunder, and if a majority of the electors voting thereat vote in favor of said bonds, same shall be considered approved and authorized, and in that event, the board of governors shall issue the said additional bonds and same shall be signed by the chairman of the board of governors, attested by the clerk, and the coupons attached to said bonds shall be signed by the treasurer of the county within which said harbor district is situated.

SEC. 37. The board of governors is hereby authorized to accept financial aid from the government of the United States of America and from the State of California and from any other political subdivision or person or persons; and in this particular, any county within which a harbor district formed hereunder is situated and any city comprising any portion of such harbor district may, out of its general fund, provide such sum or sums as in the opinion of the legislative body of said county or city may be required, necessary or expedient to be so provided in aid of said harbor or its extension or maintenance.

SEC. 38. The board of governors may use any lands acquired or owned by the harbor district for road or highway purposes, and if, in the opinion of said board, it shall be necessary or expedient to deed any of the lands owned by the harbor district for said road or highway purposes, then in that event, upon resolution of said board, said deed may be authorized to be given to the political subdivision entitled thereto and the chairman of the board of harbor governors and the clerk of said board shall be thereby authorized to execute such deed and deliver the same to the proper authority representing the grantee therein named.

SEC. 39. The board of governors shall have such other and further powers as may be necessary for the proper execution of its duties as the constructing, operating and regulating authority of said harbor and the works and lands adjacent and appurtenant thereto.

SEC. 40. All bonds issued under this act shall be the obligation of the harbor district and so long as any of said bonds shall be outstanding and unpaid, the board of supervisors of the county shall, at the time of fixing the general tax levy and in the manner for such general tax levy, provide, levy and collect annually until said bonds are paid or until there shall be a sum in the treasury of the county set aside for that purpose to meet all sums coming due for principal and interest on said bonds, a tax sufficient to pay the annual interest on such bonds, and also such part of the principal thereof as shall have become due at the time for fixing the next general tax levy. The tax herein required to be levied shall be levied upon all of the lands within the harbor district and therein taxable for county purposes, excepting personal property and improvements upon said lands, and said taxes shall be in addition to all other taxes levied for county purposes and shall be collected at the same time and in the same manner as other county taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

The board of supervisors shall, at the same time and in the same manner, have power to levy upon the lands in the harbor district a tax sufficient to pay the ordinary annual expenses of the harbor district. The taxes so levied to meet the charge of said bonds and expenses, as herein provided, shall be levied upon the lands

within the respective zones of the harbor district, as a tax charge each year in accordance with the resolution and assessment map on file in the office of the county assessor.

Sec. 41. Nothing herein shall be construed to in any manner interfere with existing operating harbors or to prevent the formation, operation or government of harbors within the State of California under any other existing harbor act.

Sec. 42. This act shall in no wise affect any other act or acts now existing or which may hereafter be passed covering the same subject matter, nor apply to any proceedings had thereunder; but it is intended to and does provide a legislative system for making the improvements and acquisitions provided for in this act and of accomplishing the purposes comprehended herein.

Sec. 43. This act and all of its provisions shall be liberally construed to the end that the purposes hereof may be effective. No error, defect, irregularity, informality and no neglect or omission of any officer of any county or municipality or board of governors in any procedure taken hereunder, which does not affect the jurisdiction of the legislative body to order the doing of the thing or things proposed to be done, shall avoid or invalidate such proceeding or any heads issued thereunder. The exclusive remedy of any person affected or aggrieved thereby shall be by appeal to the legislative body, as heretofore provided. The sole writs necessary and essential to confer jurisdiction upon the legislative body to order the doing of the thing or things proposed to be done shall consist of the adoption of a resolution therefor and the publication of the same, as in this act provided.

If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. The legislature hereby declares that it would have passed this act irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Sec. 44. This act shall be known as, and whenever cited, referred to, or amended, may be designated as the "Equalized harbor acquisition and improvement act of 1929", and by such designation shall be sufficiently identified in any proceeding hereunder or in any court action or proceeding or legislative enactment in which this act is referred to."

Said resolution also shall declare whether or not, in the judgment of the board of trustees, said refunding bonds can be sold for not less than the par value thereof, plus accrued interest, and also whether or not, in the judgment of said board, it is necessary or advisable that provision be made for payment of interest upon said refunding bonds to the date of maturity of the bonds to be refunded, and whether or not a supplemental assessment should be levied for either or both of said purposes, and if said resolution shall declare either that said refunding bonds can not be sold for as much as the par value thereof, plus accrued interest, or that it is necessary or advisable that provision be made for payment of interest upon said refunding bonds to the date of maturity of the bonds to be refunded and that a supplemental assessment should be levied for either or both said purposes, such supplemental assessment shall be levied and collected in the following manner, to wit:

The board of trustees shall prepare and certify an assessment list for said assessment in the form prescribed by section 3461 of this code. The amount of said assessment of the outstanding bonds of such district to be refunded as hereinafter provided, may direct the county treasurer to deliver to such holders in exchange therefor bonds issued pursuant to this section and having such maturities as may be agreed upon by and between said board of trustees and the holders of said bonds to be refunded; *provided*, that the aggregate principal amount of the bonds issued pursuant to this section and delivered to such holders shall not exceed the aggregate principal amount of the bonds exchanged therefor and that the bonds delivered to the district shall be immediately canceled by the county treasurer.

Said list when completed shall be filed with the clerk of the board of supervisors of the county. The board of supervisors shall appoint a time when it shall meet for the purpose of hearing objections to said assessment and notice of such hearing shall be given by publication for two weeks in some newspaper of general circulation published in said county. At any time before the date of such hearing any person interested may file written objections to such assessment stating the ground of such objections, which statement shall be verified by affidavit of such person or some other person who is familiar with the facts. At said hearing the board of supervisors may correct any errors appearing in said assessment and shall then make any order approving said assessment and shall endorse such order upon said assessment list, which said endorsement shall be signed by the chairman of the board of supervisors and attested by the clerk thereof. Such decision of said board of supervisors except as hereinafter provided, shall be final and thereafter said assessment list shall be conclusive evidence that the said assessment has been made and levied according to law. The list shall then be filed with the county treasurer, or if the district is situated in more than one county then the original list must be filed in the county where the greater portion of the lands of said district is situated and copies thereof certified by the treasurer must be filed with the treasurer of each of the other counties. No objection to such assessment shall be considered by the board of supervisors or allowed in any other action or proceeding unless such objection shall be made in writing to the board of supervisors as above specified. Any person aggrieved by the decision of the board of supervisors may commence an action in the superior court of the county in which the greater part of such dis-

trict is situated to have said assessment corrected, modified or annulled. Such action must be commenced within five (5) days after said assessment list has been filed in the office of the county treasurer. If said action shall not be commenced within five (5) days, no action or defense shall thereafter be maintained attacking the legality of said assessment in any respect.

After said approved assessment list has been so filed the charges therein specified shall be a lien upon the parcels of land so assessed and shall impart notice thereof to all persons. Said assessment shall be called for immediate payment and shall become delinquent by declaration made in said resolution at a specified date at least five days prior to the date fixed for the sale of said refunding bonds; and at least thirty days time to pay said assessment shall be given to the landowners between the date of call and the date of delinquency. Said assessment shall not bear interest and shall be payable only in gold coin of the United States. Notice of said assessment and of said call thereon must be personally served upon each owner of land in said district or in lieu of personal service must be sent through the mail addressed to said owner at his place of residence if known, or entered upon the assessment roll of the county and if not known, at the place where the principal office of the district is situated or be published once a week for two weeks successively in some newspaper of general circulation and devoted to the publication of general news within the district and if no such newspaper be published within the district then publication may be made in some newspaper published in the county seat of the county where the greater portion of said district is situated. Upon delinquency a penalty of ten per cent shall be added. If the landowners in any district shall voluntarily pay to the treasurer of the county, on the call of the board of trustees without the levy of such assessment, the amount required by the board of trustees for the aforesaid purposes as prayed on the lands in the district as herein provided then no such assessment shall be levied.

If a sale of said refunding bonds is consummated by payment of the purchase price thereof and the delivery of the bonds then the board of trustees of the district shall proceed to enforce payment of any delinquencies in the said assessment in the manner set forth in section 3466 of this code, and the provisions of said section 3466 shall apply to all subsequent proceedings in enforcing collection of said assessment. For the sale of said bonds the said treasurer shall give notice by publication at least once a week for at least two weeks in a newspaper of general circulation published in the main county, that he will sell a specified amount of said refunding bonds, and stating the day, hour and place of said sale, and asking for sealed proposals for the purchase of said refunding bonds, or any part thereof. At the time appointed for said sale, which shall be in any event at least ninety-five days prior to the date of maturity of the principal of said outstanding bonds to be so refunded by the sale of said refunding bonds, the county treasurer shall open the bids and award the said refunding bonds, or any designated number thereof, to the highest responsible bidder, but at a price in no event less than ninety per cent of the full face value of said refunding bonds. The county treasurer may, and upon written request of a majority of the trustees, must, reject any and all bids. Any sale by the county treasurer shall be conclusive evidence in favor of the purchaser and all subsequent holders of said refunding bonds that such sale was made upon due authority and notice. A proper record of such transaction shall be made upon the books of the county treasurer and the proceeds of the sale of the said refunding bonds shall be placed in the county treasury to the credit of the bond fund of the district, and the said proceeds shall be used and applied only in payment, in whole or in part, of the principal of the outstanding bonds to be refunded by the said refunding bonds so sold.

If the refunding bonds so offered for sale shall not be sold the same may again be offered for sale from time to time prior to their fixed maturity or may be exchanged for outstanding bonds as hereinbefore provided.

The principal and interest of refunding bonds shall be based on and payable out of the assessment or assessments upon which the bonds so refunded were payable, in accordance with the provisions of section 3480 of this code.

If the amount for which any portion of said refunding bonds shall be sold exclusive of accrued interest shall be less than the face value thereof then to the extent necessary for the purpose the county treasurer shall use the proceeds of said assessment together with the proceeds from the sale of said refunding bonds to meet the principal of said bonds so next maturing. Interest on said refunding bonds from date of sale to the first interest payment date shall be paid from the proceeds of said assessment. Thereafter any surplus of said assessment shall be returned by the county treasurer pro rata to those who paid it.

Any refunding bonds heretofore or hereafter issued pursuant to the provisions of this section are hereby expressly declared to be issued as a step in the process of liquidating the original bond issue that is to be paid and discharged out of the proceeds of the sale of such refunding bonds. In the event any reclamation district shall have heretofore caused its bonds to be issued and thereafter, shall have been consolidated so as to become a part of a new district, the original district issuing such bonds shall be deemed as still in existence for the purpose of liquidating such original bond issue, either by making calls on the assessment securing said bond issue, from time to time as required, or by causing refunding bonds to be issued and

sold pursuant to the provisions of this section. Any refunding bonds heretofore authorized or issued by any such original reclamation district, if authorized and issued pursuant to the provisions of this section, as in force at the time, are hereby expressly declared to be valid and subsisting obligations of such original reclamation district, and to be secured by the assessments against the lands of said district that secured the bonds to be discharged out of the proceeds of the sale of said refunding bonds.

No act done or proceeding taken under the section of the Political Code of which this act is amendatory prior to the effective date hereof shall be invalidated hereby, and all proceedings commenced prior to the effective date hereof shall be completed in accordance with the provisions of this act, and all acts and proceedings taken after the effective date of this act whether relating to the authorization, issuance, exchange, sale, or delivery of bonds, or other thing, shall be valid and legally binding if taken in accordance with the provisions of this act."

The following resolution was offered:

By Senator Carter:

WHEREAS, By an act of the Legislature approved May 28, 1917, Statutes 1917, page 1275, it was provided that every person who catches, catches, preserves or otherwise packs fish must first procure a license therefor and, in addition, pay a privilege tax to the Fish and Game Commission of 50 cents per ton for fish taken in the waters of the State or brought into the State in a fresh condition; and,

WHEREAS, Said act provides that all moneys collected from such licenses and privilege tax on fish shall be paid to the Fish and Game Commission and all moneys so collected shall be paid by the Fish and Game Commission into the State treasury to the credit of the fish and game preservation fund and shall be expended in conservation work for the benefit of the commercial fishing industries within the districts from which the revenues are derived; and,

WHEREAS, The reports of the Fish and Game Commission show that said commission has collected and received in excess of \$600,000 from the fish packing industry of California under said act; and

WHEREAS, No detailed report has ever been made by said Fish and Game Commission showing how said moneys have been expended for conservation work for said industry as required by said act, or the amount thereof which has been so expended; and,

WHEREAS, From the general financial reports issued from time to time by said commission, it can not be ascertained whether said moneys so collected have been used exclusively for conservation work for the benefit of the commercial industries within the districts from which the revenues were derived, as required by law; and

WHEREAS, The Fish and Game Commission has published in the January issue of its official publication "California Fish and Game," Volume 15, No. 1, page 44, that "A knowledge of the supply, breeding grounds, habits and other characteristics of fishes of commercial importance is not only a practical aid to the commercial fishing and canning industry, but also provides a means of more accurately determining the proper rules, regulations and laws necessary to insure their conservation"; and

WHEREAS, The commercial fishing industries are very desirous of such information, and wish for a report from the commission on the foregoing facts and such other practical information as may be of profit to them; and

WHEREAS, The Fish and Game Commission have omitted from the current budget for the next biennial period the yearly appropriation of \$15,000 made for the last three years to the Hooper Foundation for Medical Research of the University of California for the study of methods to prevent botulism spoilage in sardines, and experimental work in packing tuna, mackerel and sardines; which work is not only of utmost importance to the industry but is a safeguard to public health; now, therefore, be it

Resolved, That the Fish and Game Commission render to this Senate on or before one week from the adoption of this resolution:

First—A detailed statement of all moneys collected since July 27, 1917, under the provisions of the aforesaid act, specifying the districts from which the same were derived and the amounts from each district.

#### AMENDMENT NUMBER TWO.

On page 6, line 38, of the printed bill, as amended March 21, 1929, beginning in said line 38, strike out all of the lines 38 to 51, inclusive, and all of pages 7 to 14, inclusive, and insert in lieu thereof the following:

"SECTION 1. It is hereby declared to be the policy of the State of California to acquire and own all toll bridges situated upon or along any part of the highways of the state, with the end in view of ultimately eliminating all toll charges thereon.

SEC. 2. The term "department of public works" when used in this act shall be construed to mean the department of public works of the State of California.

The term "bond" when used in this act, either in the singular or plural, shall be construed to mean any bond or other written evidence of indebtedness which the California toll bridge authority may issue under this act in order to secure funds with which to carry out the purposes of this act.

SEC. 3. There is hereby created a board to be known as California toll bridge authority, composed of the governor, the director of the department of public works of the State of California and the chairman of the California highway commission, or in the event the office of director of the department of public works of the State of California and the office of chairman of the California highway commission or either of them hereafter be discontinued or abolished by law, then the governor shall appoint any person or officer of the State of California to fill any vacancy resulting from the abolition or discontinuance of such office. All of said members shall serve thereon without compensation, and a majority of them shall be empowered to act for said authority. The California toll bridge authority may employ a secretary and such other persons as may be necessary to enable it to properly perform the duties imposed upon it by this act.

SEC. 4. The California toll bridge authority shall authorize and direct the department of public works to build toll bridges and other toll highway crossings and to acquire for and in the name of the State of California toll bridges or other toll highway crossings and approaches thereto across waters, bays, arms of bays, straits, rivers and streams in California, both navigable and unnavigable, or across any stream that is a boundary line between California and any other state, whenever in its opinion and in the opinion of the department of public works it is necessary or desirable so to do, and to pay for the same out of any fund or funds provided or made available by this act. The department of public works is hereby empowered to acquire by gift, by purchase or by eminent domain proceedings any bridge, franchise, rights, privileges, easements or other property either real or personal, when the acquisition or construction of any such toll bridge or bridges or other toll highway crossing is authorized by the California toll bridge authority.

SEC. 5. Whenever the department of public works determines that it is advisable or necessary to acquire either through eminent domain proceedings or otherwise any existing privately owned toll bridge or bridges and the approaches or other property, franchises or rights appurtenant thereto, or when the department of public works determines that it is for the best interest of the public highways in the state that a new toll bridge or bridges or other toll highway crossing be constructed and operated by the state, the said department shall submit its recommendation to that effect to the California toll bridge authority, together with preliminary estimates of the cost of such acquisition or construction and an estimate of the amount of revenue bonds which will be required to be issued for such purpose, and a statement of the probable amount of money, property, materials or labor to be contributed from other sources in aid of such acquisition or construction. If a majority of the members of the California toll bridge authority concur in the recommendation of the department of public works the said California toll bridge authority shall adopt a resolution declaring that public interest and necessity require the acquisition of any such toll bridge or toll bridges or the construction of such toll bridge or toll bridges or other toll highway crossing and authorizing the issuance of revenue bonds in an amount to be therein specified to provide for such acquisition or construction. The issuance of bonds for the construction of more than one toll bridge or other toll highway crossing may be included in a single authorization. All such bonds so authorized shall be issued in the name of the California toll

bridge authority and shall be identified as toll bridge bonds, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon is secured only by the tolls or other revenues received from the operation of the particular bridge or bridges or other toll highway crossing for the acquisition or construction of which the bonds were issued, and that neither the payment of the principal or any part thereof or any interest thereon constitutes a debt or general obligation of the State of California; and all of said revenue bonds shall contain the further recital written or printed thereon that the California toll bridge authority reserves the right to retire and pay from any funds that may be available therefor all or any part of any issue of said bonds which may be outstanding after the expiration of five years from the date of the issuance thereof. Such bonds to be so retired at not less than par or at such other amount in excess of par as said California toll bridge authority may determine and recite on the face of said bonds when issued.

SEC. 6. All revenue bonds authorized under the terms of this act shall be issued and sold from time to time by the California toll bridge authority as and when money is needed by the department of public works for the acquisition or construction of any such toll bridges or other toll highway crossings, and to pay interest on outstanding bonds of any particular issue during the period of actual construction of any such bridge or bridges or other toll highway crossing and for a period of six months thereafter, and the proceeds thereof are hereby made available for such purposes. The California toll bridge authority shall determine the form, conditions and denominations of all such bonds, and from time to time as the sale of any portion of the bonds authorized for the construction of any particular toll bridge or bridges or other toll structures are to be issued and sold, said authority shall determine the dates which the bonds so to be sold shall bear, and the interest rate thereon, which rate shall be fixed by said authority according to the then prevailing market conditions, but shall at no time exceed six per cent per annum, and the determination of said authority as to the rate of interest shall be conclusive as to the then prevailing market conditions; and the said authority shall also fix the time of maturity of all bonds issued and the time and place of payment of principal and interest thereon. All interest payments shall be made semiannually. All such bonds shall be signed by the director of public works and countersigned by the governor and the chairman of the California highway commission. The signatures of the governor and the chairman of the California highway commission may be by facsimile. All interest coupons shall bear the facsimile signature of the director of the department of public works. Said bonds shall bear the signatures of the persons holding the particular offices referred to at the time the bonds are issued. No bonds authorized under this act shall be sold for less than the par value thereof plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the acquisition or construction of any particular bridge or bridges or other toll highway crossing shall have equal preference with respect to the redemption thereof and the payment of interest thereon; *provided, however*, the California toll bridge authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the terms of this act shall be negotiable instruments under the law merchant. All bonds issued and sold under or by authority of this act shall be sold to the highest and best bidder after such advertising for bids as the California toll bridge authority may deem proper. The said authority may reject any and all bids made for such bonds.

SEC. 7. The California toll bridge authority is hereby empowered to fix the rates of toll for all toll bridges or other toll highway crossings acquired or built under the terms of this act. Toll charges so fixed may be changed from time to time as conditions may warrant. The said authority in establishing toll charges shall give due consideration to the cost of operating and maintaining such bridge or bridges or other toll highway crossing and to the amount required annually to meet the redemption of bonds and interest payments thereon, and also to appropriations and contributions from other sources to aid in meeting any such payments. The tolls so fixed shall never be less than sufficient to meet the estimated operating and maintenance expenses and all redemption payments and interest charges of the bonds issued for any particular bridge or bridges or other toll highway crossing as the same fall due.

SEC. 8. The department of public works shall have full charge of the acquisition and construction of all such toll bridges and other toll highway crossing as may be authorized by the California toll bridge authority, the operation and maintenance thereof and the collection of tolls thereon.

SEC. 9. When the department of public works can not acquire any toll bridge or any toll highway crossing, or the real or personal property, franchises, rights, privileges or easements needed for bridge or highway crossing purposes or approaches thereto, by agreement with the owner or owners, it shall be lawful for the department of public works, and said department is hereby authorized, to condemn and take any such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements deemed necessary for such bridge or highway crossing or approach thereto, under the provisions of the laws of this state relating to

eminent domain proceedings. Said department shall not have power to commence any such proceedings in eminent domain unless and until the California toll bridge authority shall first have passed a resolution declaring that public interest and necessity require the acquisition, construction or completion by the state acting through the said department of public works of any such bridge or highway crossing, or the acquisition of any particular real estate, personal property, franchises, rights, privileges or easements, and that such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements are necessary therefor. Such resolution shall be conclusive evidence (a) of the public necessity of such acquisition, construction or completion; (b) that such property and said franchises, rights, privileges or easements are necessary therefor; and, (c) that such proposed acquisition, construction or completion is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department of public works to condemn any toll bridge or toll highway crossing, real estate, personal property, franchises, rights, privileges or easements used or to be used in connection with any such bridge or highway crossing, the attorney general of the state shall represent the department of public works, and shall upon his request, be assisted by the district attorney of the county or the city attorney of the city or city and county wherein lies the bridge, highway crossing, real estate, personal property, franchises, rights, privileges or easements sought to be acquired, and by the attorneys for the department of public works. In eminent domain proceedings to acquire property for any of the purposes of this act, any toll bridges or other toll highway crossing, real property, franchises, rights or other property appurtenant to any such bridges or highway crossing already appropriated to a public use by any person, firm or private corporation may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use to which such property has been so appropriated, or for any other public purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use than the public use to which such property has already been appropriated.

SEC. 10. Bonds issued under the provisions of this act shall not constitute or be a debt or general obligation of the state, and the payment of both principal and interest of all such bonds shall be secured only by the tolls or other revenues collected from the particular bridge or bridges or other toll highway crossings for which such bonds were issued, and shall be paid from such tolls or revenues or from such other contributions or appropriations as may be made available under the terms of this act.

SEC. 11. Any city, county, city and county, incorporated city or town, or joint highway district may, upon the request of the department of public works or of the California toll bridge authority advance or contribute money, rights of way, labor, materials and other property toward the expense of building, acquiring and maintaining the bridges or other highway crossings referred to in this act, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses. Appropriations for such purposes may be made from any funds available, including highway funds received from the state. Any of the political subdivisions or public corporations mentioned in this section may also issue general obligation bonds for any of such purposes, and all proceedings for the authorization, issue and sale of such bonds shall be had under the law governing the issue and sale of bonds for public improvements by the particular political subdivision or public corporation. Money or property so advanced or contributed may be immediately transferred or delivered to the department of public works or to the California toll bridge authority to be used for the purpose for which such advance or contribution was made. The California toll bridge authority may enter into a binding agreement with any city, county, city and county, incorporated city or town, or joint highway district to repay any money or the value of any rights of way, labor, materials or other property advanced or contributed toward the expense of acquiring or constructing any bridge or other toll highway crossing acquired or constructed as provided for in this act; provided no repayment therefor shall be made until all obligations issued by the California toll bridge authority for the acquisition or construction of any such bridge or other toll highway crossing have been fully redeemed and paid, and then only out of the toll revenues received from the operation of any such bridge or highway crossing. After all bonds issued hereunder for the acquisition or construction of any bridge or other toll highway crossing have been fully redeemed and paid no further tolls shall be collected thereon unless, because of some extraordinary casualty or calamity, or unusually heavy maintenance requirements the California toll bridge authority shall determine it necessary to continue for a longer period the collection of tolls on such bridge or other toll highway crossing; and also unless the said California toll bridge authority shall determine to continue the collection of tolls for the purpose of repayment to any city, county, city and county, incorporated city and town, or joint highway district of any amount the California toll bridge authority shall have theretofore agreed to repay for money, rights of way, labor, materials or other property advanced or contributed for the acquisition or construction of any such bridge or toll highway crossing.

SEC. 12. When any privately owned toll bridge is acquired or the location of any toll bridge or other toll highway crossing to be constructed under this act is determined upon, and revenue bonds of the character herein provided for have been authorized for such acquisition or construction, no city, county, city and county, joint highway district, bridge and highway district, or other public corporation or district of the state shall build or authorize the building of any bridge, subway or other highway crossing or establish or authorize the establishment and maintenance of any free ferry across the same body of water within five miles on either side of any such bridge so acquired or the location of any such bridge to be constructed under this act, nor shall the department of public works build any additional bridge, subway or other highway crossing or establish any free ferry within said distance of five miles until all of said revenue bonds issued for such acquisition and construction, together with interest thereon, shall have been paid; *and provided, further*, that no city, county, city and county, joint highway district, bridge and highway district or other public corporation or district shall build or authorize the building of any bridge, subway or other highway crossing or authorize the establishment of any free ferry across the same body of water within a distance greater than five miles and less than fifteen miles on either side of any bridge acquired or constructed or for which bonds may have been issued under this act without the approval and consent of the California toll bridge authority, which approval and consent may be withheld in the discretion of said California toll bridge authority when the said authority reasonably determines that the establishment of such additional bridge, subway or other highway crossing or ferry would be competitive with any toll bridge acquired or constructed or to be acquired or constructed under this act; *provided, further*, that the limitations as to distance contained in this section shall not apply to the construction of any bridge which may hereafter be built across the Golden Gate from the city and county of San Francisco to the county of Marin by the Golden Gate bridge and highway district, organized and incorporated under the provisions of an act entitled, "An act to provide for the incorporation and organization and management of bridge and highway districts and to provide for the acquisition and construction by said districts of bridges and approaches thereto, and for the acquisition of all property necessary therefor, and also to provide for the issuance and payment of bonds by said districts, for the levying of taxes and the collection of tolls by said districts and for the annexation of additional territory thereto", approved May 25, 1923, and all amendments thereto, or any bridge which may hereafter be built across said Golden Gate between the city and county of San Francisco and the county of Marin. If the California toll bridge authority shall authorize the acquisition or construction of any toll bridge designed for and limited to the carrying of a particular class or particular classes of traffic, or issue bonds therefor, the construction of other bridges designed for and limited to the carrying of different and distinct classes of traffic shall not be deemed competitive, and the limitations as to distance contained in this section shall not then apply. The provisions of this section relating to restrictions against the construction of competitive bridges, ferries, subways and other highway crossings may be recited in said revenue bonds as and as evidence of a contract to that effect between the California toll bridge authority and the holders of said revenue bonds. The California toll bridge authority may except any existing or proposed bridge, ferry, subway or other highway crossing from the limitations as to distance within which another bridge, subway or other highway crossing may be constructed by the proceedings authorizing the issuance of said revenue bonds provided recital of such exception is made on the face of said bonds.

SEC. 13. The proceeds from the sale of all bonds authorized under the provisions of this act shall be deposited forthwith by the California toll bridge authority in the state treasury to the credit of a fund to be designated as the acquisition and construction fund of the particular bridge, or bridges or other highway crossing for which such bonds were issued and sold.

All tolls or other revenues received from the operation of any bridge or bridges or other highway crossing acquired or constructed from the proceeds of bonds issued and sold hereunder shall be deposited by the department of public works at least monthly in the state treasury to the credit of a fund to be designated as the toll revenue fund of the particular bridge or bridges or other highway crossing producing such tolls or revenue.

From the money so deposited in each separate acquisition and construction fund as hereinabove provided, the state treasurer shall, upon the demand of the California toll bridge authority, transfer to a special fund to be designated as a bond interest and redemption fund such sums designated by the California toll bridge authority as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of any particular bridge or bridges or other toll highway crossing during the period of actual construction and during a period of six months immediately thereafter. The treasurer shall thereafter transfer from each such separate toll revenue fund into said bond interest and redemption fund, such sums designated by the California toll bridge authority as may be required to pay the interest on said bonds and redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction or acquisition of the

particular bridge or bridges or other highway crossing producing the tolls or revenues so deposited in said toll bridge revenue fund.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as heretofore provided shall be devoted to the payment of the costs of operation and maintenance of such bridge or bridges or other highway crossing to the extent necessary therefor. Any balance remaining in said fund after paying such operation and maintenance expenses may be allocated and used for such other purposes incidental to the acquisition, construction, operation and maintenance of such bridge or bridges or other highway crossing as the California toll bridge authority may determine.

The principal of and interest on all said bonds which may be sold shall be paid by the state treasurer at the time the same become due from said bond interest and redemption fund upon presentation of the bonds or bond interest coupons of the holders thereof. Warrants for such payment shall be duly drawn by the state controller upon request of the state treasurer.

Moneys required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition or construction of any particular bridge or bridges or other highway crossing, or to meet the costs of operating, maintaining and repairing the same shall be paid from the proper fund therefor as herein provided upon demand of the department of public works and after audit thereof in the manner provided by law and upon warrants drawn by the controller.

All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund from which said interest is derived.

SEC. 14. Nothing in this act shall be construed to prevent the state from making appropriations from time to time in aid of the acquisition or construction of any such toll bridge or bridges or other toll highway crossing, or property, franchises or rights appurtenant thereto, or for the purpose of making preliminary surveys, plans and estimates of the cost thereof, and meeting other preliminary expenses as the Legislature may deem proper.

SEC. 15. Any city, county, city and county, incorporated bridge and highway district, or joint highway district may by proper resolution of its governing body petition the California toll bridge authority requesting said authority to authorize the acquisition or construction of any toll bridge or other toll highway crossing across any waters, bays, arms of bays, rivers or streams wholly within, or bordering upon, or wholly without the limits of any such political subdivision or public corporation herein mentioned. If the California toll bridge authority refuses to authorize the acquisition or construction of any such proposed toll bridge or other toll highway crossing, or in the event said authority does not within three years from the receipt of said petition authorize the acquisition or construction of such toll bridge or other toll highway crossing, then any such city, county, city and county, incorporated bridge and highway district or joint highway district, either singly or in conjunction with other cities, counties, cities and counties, incorporated bridge and highway districts or joint highway districts, may acquire or construct such toll bridge or other toll highway crossing, subject, however, to the limitations of section 12 of this act relative to the building of bridges in competition with bridges acquired or constructed.

SEC. 16. Bonds issued under the provisions of this act shall be legal investments for all trust funds, and for the funds of insurance companies, banks, both commercial and savings, and trust companies, and for state school funds, and whenever any money or funds may by any law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or irrigation districts within the State of California, such money or funds may be invested in the said bonds issued under this act and in accordance with its provisions, and whenever bonds of cities, cities and counties, counties, school districts or irrigation districts within this state may by any law now or hereafter enacted be used as security for the performance of any act or the deposit of any public moneys, the said bonds issued under this act and in pursuance of its provisions may be so used.

SEC. 17. The California toll bridge authority is authorized to enter into agreements with steam and electric or other railroad or transportation companies for the use of portions of such bridges or other toll highway crossings at such charges or tolls as may be mutually agreed upon should the California toll bridge authority consider such agreements advisable or necessary for the financing of such bridges or highway crossings, and for the best interests of the state.

SEC. 18. The department of public works, through its own engineers or through such other engineers or experts it may employ, shall design all bridges to be built under the authority of this act, and may build the same or any portions thereof either by its own employees or by contract with any person, firm or corporation. The cost of any or of all such bridges shall be paid from the proceeds of bonds issued and sold under the provisions of this act, or from contributions or appropriations from other sources as herein provided. Any such bridge or bridges or portions thereof shall be built by the department of public works under and in accordance with the provisions of an act entitled "An act to regulate contracts on behalf of the state in relation to the erection, construction, alteration, repair or improvement of any state structure, building, road or other state improvement of any kind and to repeal an act entitled 'An act to regulate contracts on behalf of the state in relation

#### RESOLUTION.

At a special meeting of the board of directors of the Affiliated Improvement Associations of the city and county of Los Angeles, held on the twenty-eighth day of March, 1929, the following resolution was adopted:

WHEREAS, It has come to the attention of the board of directors of the Affiliated Improvement Associations of the City and County of Los Angeles that a certain bill, No. 813, has been introduced in the lower house of the Legislature of the State of California, entitled "An act to amend section 702 of the Code of Civil Procedure of the State of California by adding thereto a provision relating to redemption from sales under foreclosure of mortgages," which bill provides that the period of redemption from a sale of real property on foreclosure of any mortgage hereafter executed shall be one hundred twenty days after the day of sale; and

WHEREAS, The period heretofore and now for such redemption is twelve months, which year redemption period from sale under mortgage foreclosure is now and has been for many years a bulwark of the law, a protection to the property owner, and an advantage and impetus in the promotion of real estate transactions, permitting a choice between the twelve months redemption of mortgages, and the four months required to foreclose rights under trust deeds; and

WHEREAS, The change proposed by this bill is in the latter part thereof and is camouflaged by being preceded by the first part of section 702 of the Code of Civil Procedure as it now stands, and in the failure to state in the title of said bill the true purport thereof; and

WHEREAS, By legal construction and court interpretation when two provisions or clauses of an act are contradictory, the latter one is held to prevail, which rule of statutory construction would bring about a reduction from twelve to four months of the right of redemption from mortgage foreclosure sales; if this bill should become a law; now, therefore, be it

*Resolved*, That the Affiliated Improvement Associations of the City and County of Los Angeles does hereby place itself on record as strenuously opposed to this bill and the proposed amendment therein contained for the reasons heretofore set forth, and do most earnestly request all members of the Legislature to oppose its enactment; and it is hereby further

*Resolved*, That a copy of this resolution be mailed to every member of the Legislature from the county of Los Angeles.

BOARD OF DIRECTORS OF THE AFFILIATED IMPROVEMENT ASSOCIATIONS OF THE CITY AND COUNTY OF LOS ANGELES.

On page 9, line 24, of the printed bill, strike out the word "from", and all the rest of said line and all of lines 25 to 52, both inclusive, of said page, and all of lines 1 to 19, both inclusive, of page 10, and insert in lieu thereof the following:

"If any owner of property contained within the boundaries of any such future street lines or owning any interest therein, shall claim that the adoption of said precised street plan constitutes the taking of his property by the said city, city and county, or county, he shall, within three months from the date of filing such map in the county recorder's office, file notice of his claim with the clerk of the governing body thereof and record a copy thereof showing filing of the original with the clerk of the governing body. In the event that said city, city and county, or county shall fail within three months after filing of the claim as aforesaid to acquire a limited easement over said property for the life of the said precised street plan, or to begin condemnation proceedings for the acquisition thereof, or to vacate by ordinance the precised street plans so far as it applies to claimant's property, then said precised street plans shall automatically be declared, so far as claimant's

property is concerned to be vacated and he shall hold the same free from any claim under the provisions of this act for the control of said property. Said owner or claimant of an interest therein shall be entitled, upon demand, to a certificate from the clerk of the governing body of the city, city and county, or county, that said city, city and county, or county has failed to acquire such limited easement or begin condemnation proceedings as required by this section for the acquisition thereof, and said certificate duly filed in the office of the county recorder shall constitute conclusive evidence of the removal of any cloud on his title by virtue of the adoption of said precised street plan.

In the event that any owner of property lying within the boundaries of such precised street plans or any claimant of interest therein shall fail to file a claim as specified in this section, such owner or claimant shall be conclusively deemed to have waived any claim for damages by reason of the easement over and across his property or the property in which he claims an interest by virtue of said street plan except as hereinafter provided, but he shall not be deemed to have waived any title to the property within any precised street plan or any interest therein other than the right to erect or construct thereon a building without first complying with the provisions of section 14a of this act.

SEC. 14a. No person who has been compensated in accordance with the provisions of section 14 or who has waived his right to indemnity thereunder, shall erect or construct, or begin to erect or construct, any building capable of human habitation or use, fences and walls excluded, within the boundaries of any street shown on such precised street plan until three months after he has filed with the clerk of the governing body an affidavit setting forth his intention immediately to build thereon, the character of the proposed building, its estimated cost, the price at which he will convey to said city, city and county, or county a street easement over his property in accordance with the provisions of said precised street plan. He shall thereafter record a certified copy thereof showing the original to have been so filed in the office of the county recorder. The governing body may at any time within three months after the filing of such affidavit purchase or commence eminent domain proceedings for the acquisition of a street easement across said property in accordance with the provisions of said precised street plan. The cost of acquisition of said street easement may be made a part of the preliminary expenses of any acquisition of the entire street as shown on said precised street plan by a subsequent special assessment proceeding and in said case out of the funds obtained from the special assessment proceedings, if provided by the resolution of intention therein, there shall be returned to the revolving fund established by section 14b of this act, the cost of acquisition of the street easement over said particular parcel.

If the city, city and county, or county, fails to purchase or commence eminent domain proceedings for the acquisition of such a street easement across the parcel of said claimant within the time above stated, or such shorter time when the governing body has given formal notice of its intention not to secure such easement at said time, copy of such notice, properly attested, to be recorded in the office of the county recorder, then the owner thereof may construct such building free from any claim of the city, city and county, or county, to control the use of said property by reason of the adoption of the precised street plan under the provisions of this act.

No damage shall hereafter be awarded in any eminent domain proceedings for the taking of or damage to any structure located within the right of way shown upon such precised street plan by reason of the carrying out of the proposed public improvement shown upon such a precised street plan where the owner of any parcel contained therein has failed to file the affidavit or failed to wait thereafter the prescribed time, or in excess of the amount of damage which would have been awarded had the structure built been fairly included within that set forth in the description contained in the affidavit filed by such person; *provided, however*, that nothing contained herein shall be construed to prevent an owner from filing subsequent and different affidavits and offers when his plan for the proposed structure are changed, said additional affidavits and offers to be subject to all provisions of this section.

From and after the filing for record of any precised street plan no permit shall be issued for the construction of any building or structure or any part thereof: fences and walls excluded on any part of the land right between the future lines of any street shown on such precised street plan until the applicant therefor can demonstrate to the body issuing such permits that such property has been released from the effects of said precised street plan under the provisions of section 14 or this section of this act.

SEC. 14b. Any city, city and county, or county, is hereby authorized to levy a tax of not to exceed two mills per dollar of assessed valuation for the purpose of creating a revolving fund for the purpose of compensating property owners under the provisions of sections 14 and 14a of this act, and are further authorized to expend any and all unappropriated funds of said city, city and county, or county for the purposes set forth in said sections. Any compensation paid under sections 14 or 14a of this act may, in the discretion of the governing body of the city, city and county, or county, be made a charge against any special assessment district later established for the purpose of acquiring a street easement in accordance with the provisions of such precised street plan. In the event that such compensation is made a charge against any special assessment district, the proceeds derived from

such special assessment district to compensate the city, city and county, or county therefor shall be paid into the special fund created by such tax if originally paid therefrom, or such other fund as it may in the first instance have been paid from".

Any special election called under the provisions of this act by a board of supervisors must be called not less than thirty and not more than sixty days after the petition calling for the organization of a regional planning district has been filed with said board of supervisors.

Any regional planning commission created under the provisions of this act may petition the proper board of supervisors at least sixty days before the date of any regular election to submit to the voters of the district a proposal to enlarge or reduce the area included in said district and may also petition said board to submit to the electors a proposal to increase the maximum tax levy authorized hereunder, to an amount not to exceed two mills per dollar of assessed valuation of real property if a lower maximum than two mills has previously been set, and said board of supervisors thus petitioned must cause such questions to be included and placed upon the ballot at the next general election."

#### COMMITTEE AMENDMENTS.

During the second reading of the bill, the following committee amendments were offered:

##### AMENDMENT NUMBER ONE.

On page 1 of the printed bill, strike out all of the title of said bill, and insert in lieu thereof "An act to expedite and simplify the collection and payment by banks of checks and other instruments for the payment of money."

Amendment adopted.

## AMENDMENT NUMBER TWO.

On page 1 of the printed bill, strike out all of lines 1 to 20, inclusive, and insert in lieu thereof the following:

"SECTION 1. For the purposes of this act:

(a) The term "bank" shall include any corporation or association, engaged in the business of receiving and paying deposits of money within this state. A branch or office of any such bank shall be deemed a bank for the purpose of this act.

(b) The term "item" means any check, note or other instrument providing for the payment of money.

SEC. 2. Except as otherwise provided by agreement and except as to subsequent holders of a negotiable instrument payable to bearer or indorsed specially or in blank, where an item is deposited or received for collection, the bank of deposit shall be agent of the depositor for its collection and each subsequent collecting bank shall be sub-agent of the depositor but shall be authorized to follow the instructions of its immediate forwarding bank and any credit given by any such agent or sub-agent bank therefor shall be revocable until such time as the proceeds are received in actual money or an unconditional credit given on the books of another bank, which such agent has requested or accepted. Where any such bank allows any revocable credit for an item to be withdrawn, such agency relation shall nevertheless continue except the bank shall have all the rights of an owner thereof against prior and subsequent parties to the extent of the amount withdrawn.

SEC. 3. A credit given by a bank for an item drawn on, or payable at such bank shall be provisional, subject to revocation at or before the end of the day on which the item is deposited in the event the item is found not payable for any reason. Whenever a credit is given for an item deposited after banking hours such right of revocation may be exercised during the following business day.

SEC. 4. An indorsement of an item by the payee or other depositor "for deposit" shall be deemed a restrictive indorsement and indicate that the indorsee bank is an agent for collection and not owner of the item.

An indorsement "pay any bank or banker" or having equivalent words shall be deemed a restrictive indorsement and shall indicate the creation of an agency relation in any subsequent bank to whom the paper is forwarded unless coupled with words indicating the creation of a trustee relationship; and such indorsement or other restrictive indorsement whether creating an agency or trustee relationship shall constitute a guaranty by the indorser to all subsequent holders and to the drawee or payee of the genuineness of and the authority to make prior indorsements and also to save the drawee or payee harmless in the event any prior indorsement appearing thereon is defective or irregular in any respect unless such indorsement is coupled with appropriate words disclaiming such liability as guarantor.

Where a deposited item is payable to bearer or indorsed by the depositor in blank or by special indorsement, the fact that such item is so payable or indorsed shall not change the relation of agent of the bank of deposit to the depositor, but subsequent holders shall have the right to rely on the presumption that the bank of deposit is the owner of the item. The indorsement of an item by the bank of deposit or by any subsequent holder in blank or by special indorsement or its delivery when payable to bearer, shall carry the presumption that the indorsee or transferee is owner provided there is nothing upon the face of the paper or in any prior indorsement to indicate an agency or trustee relation of any prior party. But where an item is deposited or is received for collection indorsed specially or in blank the bank may convey such an indorsement into a restrictive indorsement by writing over the signature of the indorser the words "for deposit" or "for collection," or other restrictive words to negative the presumption that such bank of deposit or indorsee bank is owner; and in the case of an item deposited or received for collection payable to bearer, may negative such presumption by indorsing thereon the words "received for deposit" or "received for collection" or words of like import.

SEC. 5. It shall be the duty of the initial or any subsequent agent collecting bank to exercise ordinary care in the collection of an item and when such duty is performed such agent bank shall not be responsible if for any cause payment is not received in money or an unconditional credit given on the books of another bank, which such agent bank has requested or accepted. An initial or subsequent agent collecting bank shall be liable for its own lack of exercise of ordinary care but shall not be liable for the neglect, misconduct, mistakes or defaults of any other agent bank or of the drawee or payor bank.

SEC. 6. (a) Where an item is received on deposit or by a subsequent agent bank for collection, payable in another town or city, it shall be deemed the exercise of ordinary care to forward such item by mail, not later than the business day next following its receipt either (1) direct to the drawee or payor in the event such drawee or payor is a bank or (2) to another bank collecting agent according to the usual banking custom, either located in the town or city where the item is payable or in another town or city.

(b) Where an item is received on deposit or by a subsequent agent bank for collection, payable by or at another bank in the same town or city in which such agent bank is located, it shall be deemed the exercise of ordinary care to present the item for payment at any time not later than the next business day following the

day on which the item is received either (1) at the counter of the drawee or payor by agent or messenger or (2) through the local clearing house under the regular established procedure, or according to the usual banking custom where the collecting or payor bank is located in an outlying district.

(c) The designation of the above methods shall not exclude any other method of forwarding or presentment which under existing rules of law would constitute ordinary care.

SEC. 7. Where the item is received by mail by a solvent drawee or payor bank, it shall be deemed paid when the amount is finally charged to the account of the maker or drawer.

SEC. 8. Where an agent bank forwards an item for collection, it shall not be responsible for its loss or destruction in transit, or, when in the possession of others, for its inability to repossess itself thereof, provided there has been no lack of ordinary care on its part.

SEC. 9. Where ordinary care is exercised, any agent collecting bank may receive in payment of an item without becoming responsible as debtor therefor, whether presented by mail, through the clearing house or over the counter of the drawee or payor, in lieu of money, either (a) the check or draft of the drawee or payor upon another bank or (b) the check or draft of any other bank upon any bank other than the drawee or payor of the item or (c) such method of settlement as may be customary in a local clearing house or between clearing banks or otherwise; *provided*, that whenever such agent collecting bank shall request or accept in payment an unconditional credit which has been given to it on the books of the drawee or payor or on the books of any other bank, such agent collecting bank shall become debtor for such item and shall be responsible therefor as if the proceeds were actually received by it in money.

SEC. 10. Where ordinary care is exercised, any agent collecting bank may receive from any subsequent bank in the chain of collection in remittance for an item which has been paid, in lieu of money, the check or draft of the remitting bank upon any bank other than itself or the drawee or payor of the item or such other method of settlement as may be customary; *provided*, that whenever such agent collecting bank shall request or accept an unconditional credit which has been given to it on the books of the remitting bank or on the books of any other bank, such agent collecting bank shall become debtor for such item and shall be responsible therefor as if the proceeds were actually received by it in money.

SEC. 11. Where an item is duly presented by mail to the drawee or payor, whether or not the same has been charged to the account of the maker or drawer thereof or returned to such maker or drawer, the agent collecting bank so presenting may, at its election, exercised with reasonable diligence, treat such item as dishonored by nonpayment and recourse may be had upon prior parties thereto in any of the following cases:

(1) Where the check or draft of the drawee or payor bank upon another bank received in payment therefor shall not be paid in due course;

(2) Where the drawee or payor bank shall without request or authority tender as payment its own check or draft upon itself or other instrument upon which it is primarily liable;

(3) Where the drawee or payor bank shall give an unrequested or unauthorized credit therefor on its books or the books of another bank; or

(4) Where the drawee or payor shall retain such item without remitting therefor on the day of receipt or on the day of maturity if payable otherwise than on demand and received by it prior to or on such day of maturity.

*Provided, however*, that in any case where the drawee or payor bank shall return any such item unpaid not later than the day of receipt or of maturity as aforesaid in the exercise of its right to make payment only at its own counter, such item cannot be treated as dishonored by nonpayment and the delay caused thereby shall not relieve prior parties from liability.

*Provided, further*, that no agent collecting bank shall be liable to the owner of an item where, in the exercise of ordinary care in the interest of such owner, it makes or does not make the election above provided or takes such steps as it may deem necessary in cases (2), (3) and (4) above.

SEC. 12. In case of the dishonor of an item duly presented by mail as provided for in the next preceding section, notice of dishonor of such item to prior parties shall be sufficient if given with reasonable diligence after such dishonor; and further in the event of failure to obtain the return of any such item notice of dishonor may be given upon a copy or written particulars thereof, and delay in giving notice of dishonor caused by an attempt with reasonable diligence to obtain return of such item shall be excused.

SEC. 13. 1. When the drawee or payor, or any other agent collecting bank shall fail or be closed for business by the superintendent of banks, or any other qualified public official, or by action of the board of directors or by other proper legal action, after an item shall be mailed or otherwise entrusted to it for collection or payment but before the actual collection or payment thereof, it shall be the duty of the receiver or other official in charge of its assets to return such item, if same is in his possession, to the forwarding or presenting bank with reasonable diligence.

2. Except in cases where an item or items are treated as dishonored by nonpayment as provided in section 11, when a drawee or payor bank has presented to it for payment an item or items drawn upon or payable by or at such bank and at the time has on deposit to the credit of the maker or drawer an amount equal to such item or items and such drawee or payor shall fail or close for business as above, after having charged such item or items to the account of the maker or drawer thereof or otherwise discharged his liability thereon but without such item or items having been paid or settled for by the drawee or payor either in money or by an unconditional credit given on its books or on the books of any other bank, which has been requested or accepted so as to constitute such drawee or payor or other bank debtor therefor, the assets of such drawee or payor shall be impressed with a trust in favor of the owner or owners of such item or items for the amount thereof, or for the balance payable upon a number of items which have been exchanged, and such owner or owners shall be entitled to a preferred claim upon such assets, irrespective of whether the fund representing such item or items can be traced and identified as part of such assets or has been intermingled with or converted into other assets of such failed bank.

3. Where an agent collecting bank other than the drawee or payor shall fail or be closed for business as above, after having received in any form the proceeds of an item or items entrusted to it for collection, but without such item or items having been paid or remitted for by it either in money or by an unconditional credit given on its books or on the books of any other bank which has been requested or accepted so as to constitute such failed collecting or other bank debtor therefor, the assets of such agent collecting bank which has failed or been closed for business as above shall be impressed with a trust in favor of the owner or owners of such item or items for the amount of such proceeds and such owner or owners shall be entitled to a preferred claim upon such assets, irrespective of whether the fund representing such item or items can be traced and identified as part of such assets or has been intermingled with or converted into other assets of such failed bank.

SEC. 14. The provisions of this act shall not apply to transactions taking place prior to the time when it takes effect.

SEC. 15. In any case not provided for in this act the rules of law and equity, including the law merchant and those rules of law and equity relating to trusts, agency, negotiable instruments and banking, shall continue to apply.

SEC. 16. This act shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those states which enact it.

SEC. 17. This act shall be known as the "Bank collection act."

SEC. 18. All acts or parts of acts inconsistent with this act are hereby repealed."

During the second reading of the bill, the following committee amendment was offered:

#### AMENDMENT NUMBER ONE.

On page 1, line 1, of the printed bill, after the "." following the word "county", said word first appears in said line 1, strike out all of the remainder of the printed bill and insert in lieu a "," and the following: "or county is the owner of real property which has been acquired for a particular purpose by purchase with funds derived from an assessment district, and it appears to the legislative bodies of said city, city and county, or county that it is to the advantage of the property owners lying in said city, city and county, county or assessment district to use said property for purposes other than those for which said property was acquired, power is hereby granted to said legislative bodies to lease said property, subject to the following terms and conditions. Said property shall be leased by said legislative body upon said legislative body receiving a petition signed by the owners of at least fifty-one per cent of the property lying in the assessment district created for the purpose of acquiring said property, and which said owners of property have paid, or are paying special assessment taxes or assessments for the purchase of said property. Said petition may set forth the terms and conditions under which said property may be leased by said legislative bodies for purposes other than that for which said property was acquired. The legislative bodies of said city, city and county, county or assessment district shall have no power to lease said property or to use the same other than for the purposes for which it is acquired in the absence of a petition signed by

the owners of at least fifty-one per cent of the property as hereinabove set forth, and then only according to the terms and conditions set forth in said petition.

SEC. 2. Said petition shall be in general language and to particular requirements shall be necessary for the validity of said petition, save and except that said petition shall provide that said property shall only be leased to the highest bidder as hereinbefore set forth.

SEC. 3. Upon receiving said petition, said legislative body may pass a resolution of intention to lease said property according to the terms and conditions set forth in said petition. Said resolution of intention shall be sufficient if it states in general terms, the terms and conditions set forth in said petition, the location of the property proposed to be leased and the purpose for which said property is proposed to be leased. Said resolution of intention shall also contain a notice of the day, hour and place, when and where any and all persons having any objection to the proposed leasing of said property may appear before the legislative body and show cause why said proposed leasing should not be carried out in accordance with said resolution of intention and the terms and conditions of said petition. Said time shall be not less than fifteen, nor more than forty days from the date of the passage of said resolution. The clerk of said legislative body shall cause said resolution of intention to be published once a week for two successive weeks in one or more daily newspapers published and circulated in said city, city and county, or county. Any property owner whose property has been, or is being assessed to pay the costs and expenses of purchasing said property to be leased, may at the time fixed in the resolution of intention for hearing of objections to the proposed leasing, appear before the said legislative body and make objections to the said lease. The failure to make objection at said time shall be deemed to be a waiver of all objections to the proposed leasing, and shall operate as a bar to any subsequent action looking to the prevention of said leasing.

SEC. 4. At any time not later than the hour set for hearing objections to said proposed leasing as provided in section 1 herein, any owner of property which is being assessed, or has been assessed for the purchase of said property to be leased, may make written protest against the proposed leasing, such protest must be in writing and must be delivered to the clerk of said legislative body and no other protest or objections shall be considered. At the time set for hearing protests, the said legislative body shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive. In the event that a majority of the persons owning property which has been, or is being assessed in said city, city and county, or county, for the purchase of said property, shall protest against the leasing of said property according to the terms set forth in said petition, then and in that event, the said legislative body shall cease all further proceedings and no further steps shall be taken for the leasing of said property. Upon the time fixed for the hearing of protests, evidence may be produced going to any of the matters to be determined and in such order as the legislative body may summarily direct. Said hearing may be continued from time to time upon the order of the legislative body. Upon such hearing, all objections and protests to the leasing of the property proposed to be leased shall be heard and considered. In the event that no protests have been received by the legislative body, said legislative body may proceed to lease said property in the manner hereinafter set forth, and according to the terms and conditions set forth in the petition of said assessment paying property owners.

Unless the power to proceed shall have ceased as hereinbefore provided, the legislative body shall at the conclusion of the aforementioned hearing and on a determination of all questions arising thereon, by resolution to be entered upon its minutes, declare its finding that the owners of more than one-half of the area of the property included in the assessment district created for the purchase or improvement of said property have not made written objection to the leasing of the property proposed to be leased. Said legislative body shall also pass upon the protests filed by other persons than those petitioning for the leasing of said property and if in the opinion of a majority of said legislative body said protests are valid and the terms and conditions set forth in the petition of the petitioning property owners will not result in the leasing of the property to the best interests of said property owners, said legislative body may deny said petition and decline to proceed further with said leasing unless a majority of said property owners consent to such terms and conditions as shall be embodied in a protest which has been allowed by said legislative body.

In the event that said legislative body shall have denied said protests, or in the event that no protests have been made, the said legislative body shall proceed by resolution to order the property leased according to the terms and conditions set forth in said petition. In said resolution the legislative body shall therein fix a time for receiving bids for the leasing of said property and direct the clerk thereof to give notice accordingly inviting sealed bids. The time for receiving bids shall not be fixed until the first regular meeting of the legislative body after the expiration of fifteen days following the passage of said resolution ordering said property to be leased. Said legislative body shall also cause a notice to be posted conspicuously for five days, on or near the legislative body chamber door, containing terms and conditions set forth in the petition. Said notice shall also contain an invitation inviting sealed proposals or bids for the leasing of said property, and said notice

shall be published once a week for two successive weeks in a daily, semiweekly or weekly newspaper published or circulated in said city, city or county, county or assessment district.

In the event that the property is offered for lease at a monthly rental, all proposals or bids offered shall be accompanied by a bond, signed by the bidder and two good and sufficient sureties who shall justify under oath in double an amount to be fixed by the legislative body in the resolution calling for bids, over and above all statutory exemptions. In the event that the petition signed by the property owners as hereinbefore set forth requires the making of certain improvements upon said property, and the payment of rentals in products from the land, royalties or commissions, the bidder shall furnish with said proposal a bond to be fixed in an amount by the legislative body in the resolution calling for bids, which said bond shall be signed by the bidder and two good and sufficient sureties who shall justify under oath in double said amount, over and above all statutory exemptions, and which said bond shall be conditioned for the faithful performance of the obligations to be assumed by said bidder. Said legislative body shall award the lease to the highest responsible bidder.

After said bid has been accepted by said legislative body, said legislative body shall proceed to enter into a lease with said highest bidder, which said lease shall contain all the terms and conditions set forth in the petition of said property owners, and which said lease shall provide for the payment of rentals, commissions or royalties, in an amount equal to the amount set forth in said accepted bid.

SEC. 5. This act shall be liberally construed to the end that its purposes may be effected.

Any section, subsection, sentence, clause or phrase which is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. The Legislature hereby declares that it would have passed this act irrespective of the fact that one or more section, subsection, sentence, clause or phrase be declared unconstitutional."

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

SACRAMENTO, April 8, 1929.

*To the Senate of the State of California.*

Senate Bill No. 656 is herewith returned without my approval.

The purpose of the bill, as stated by its author, is good, viz: to guarantee the faithful performance of their contract on the part of those engaging in the business of selling a form of burial insurance and issuing burial contracts or certificates therefor. However, it is very doubtful if the bill as now drawn accomplishes the purposes intended. There is no definition of "burial contracts or certificates" and the bill might possibly be held void for uncertainty.

On the other hand the present language is broad enough to include fraternal societies now providing funeral benefits for their members, which is not intended.

Assembly Bill No. 957 is an identical bill and can be easily amended to take care of these objections. Assemblyman Woolwine has agreed to amend his bill accordingly. For these reasons the Attorney General and the Legislative Counsel, as well as others who have studied the measure and commented thereon, including the author, Senator Rochester, agree that my approval should be withheld.

Respectfully submitted.

C. C. YOUNG, Governor.

Governor's message ordered to unfinished business.

#### AMENDMENT NUMBER ONE.

In the title of the printed bill, strike out lines 1 to 17, inclusive, and insert in lieu thereof the following:

"An act to provide for the establishment of regions to be designated by the governor as "protected scenic region of the State of California": setting forth the manner in which such regions may be established, the manner in which the boundaries thereof may be changed, the manner in which said regions may be dissolved; vesting the administration of any said region in the department of natural resources and extending the advisory services of said department; all for the purpose of preserving the scenic and natural resources of any region."

On page 1, line 1, of the printed bill, strike out all of lines 1 to 11, inclusive, and also strike out all of pages 2 and 3, inclusive, and insert in lieu thereof the following:

"SECTION 1. Whenever it shall appear to the director of the department of natural resources, upon evidence submitted to him, that in any compact region of the state not less than ten square miles in extent, the natural resources of the region as a whole for purposes of outdoor recreation and enjoyment of scenery are of notable importance and value to the state at large and constitute one of the principal natural resources of the region itself, the department may, under his direction, make investigations as to the facts of the case, as to the measures which have been taken and which reasonably might be taken by the inhabitants and landowners of said region or by public authorities having jurisdiction therein toward conserving, protection, and making available the said natural resources for outdoor recreation and enjoyment of scenery, and as to the relation of such measures to the proper and well-balanced development of all the natural resources of the region; may consult and advise with said inhabitants, landowners, and public authorities as to such measures and related matters; and may prepare a report upon the question of whether the region is in fact of such notable scenic and recreational importance in the state and is in fact so well protected as to the permanence of its scenic and recreational attractions and resources, either by means of public ownership of lands or rights in land held in trust for such purposes, or by suitable covenants running with title to land not publicly owned, or by regulations properly imposed by several or all of these, as to justify its official recognition as a protected scenic region of the State of California.

SEC. 2. If the director of the department of natural resources, with the concurrence of the state park commission, shall submit to the governor a report recommending such action in regard to any given region defined in said report, which report must be made in accordance with the provisions of section 1 hereof, the governor may proclaim said region to be a protected scenic region of the State of California, and the same shall thereafter be such; *provided, however*, that the governor may thereafter, upon the advice of the director of the department of natural resources, concurred in by the state park commission, extend, alter, or retract the boundaries of said region, or in case the measures in force for protecting the permanence of its scenic and recreational resources shall appear to be inadequate declare it to be no longer a protected scenic region of the State of California, whereupon it shall cease to be such.

SEC. 3. The department of natural resources shall cause suitable signs or markers to be erected and maintained at or near the boundaries of any protected scenic region of the State of California on or adjacent to roads and trails leading into it, shall enumerate and describe all such regions in suitable publications of the department or of its divisions, and otherwise supply information in regard to such regions to the public; and officers of the state may, under the direction of the governor, advise and cooperate with said inhabitants and landowners of the region and public authorities having jurisdiction therein for securing effective administration of the measures directed toward the conservation and wise utilization of the scenic and recreational resources of the region."

*Resolved*, That the Chamber of Commerce of the city of Long Beach, a municipal corporation, located within the Los Angeles County Flood Control District, hereby respectfully petitions the Legislature of the State of California to pass that certain bill requested by the San Gabriel Valley Protective Association, Incorporated, amending the "Los Angeles County Flood Control Act," for the following reasons:

First—The bill places the government of said flood control district in the hands of a board of directors elected by the voters of said district for the specific purpose of managing the business and affairs of said district, and for no other purpose.

Second—The board of directors so elected will be able to devote their entire time and services to the management and welfare of said district, and thus much greater business efficiency will be secured than under present conditions.

The government of said district is now merged with that of the whole county of Los Angeles, which has an annual tax levy of over \$123,000,000. It is therefore impossible for the various important business interests of said district, including, besides extensive flood protection and maintenance work each year, the building of a dam costing \$25,000,000, to receive the same careful consideration and supervision they would receive from a board whose sole duty it was to attend exclusively to the business of the district.

Third—Under present conditions decisions and policies are adopted and measures taken concerning said district and its business affairs upon political considerations arising out of the government of Los Angeles County as a whole; whereas, under the change proposed, an independent board in charge of the business affairs of said district would be able to carry on such business on business principles without regard to any political features involved in Los Angeles County government.

Fourth—The Los Angeles County Flood Control District is the only district in the State of California created by an act of the Legislature except one other created by the Legislature at its last session, modeled after the Los Angeles district, that is not governed by a separate local board elected by the people of the district.

The Los Angeles County Flood Control District be given the same rights and privileges of local self-government possessed by all other similar districts in California.

The Chamber of Commerce of the city of Long Beach resolves as follows:

WHEREAS, The San Gabriel Valley Protective Association, Incorporated, an organization composed of representatives from various municipalities, water companies and water users, all of whom are vitally interested in flood protection work and conservation of water and water resources in the San Gabriel Valley, has drafted a bill making certain amendments to the "Los Angeles County Flood Control Act"; and

WHEREAS, A copy of said proposed bill has been submitted to the Chamber of Commerce by said association with the request that said Chamber of Commerce ask Senator Frank F. Merriam to introduce such bill for said association, for passage by the Legislature; and

WHEREAS, Said bill has been approved by the following municipalities and organizations who have joined in a petition to the Legislature to pass said bill, to wit: The city council of Long Beach, the city council of Signal Hill, the city council of Compton, the city council of Whittier, the city council of Covina, the city council of Glendora, the city council of Glendale, the city council of Lynwood, the Artesia Chamber of Commerce, La Puente Valley Chamber of Commerce, Clear-

water-Hynes Chamber of Commerce; Baldwin Park Chamber of Commerce, Monrovia Chamber of Commerce; Downey Chamber of Commerce, Downey Kiwanis Club, Wilmington Chamber of Commerce, Contract Water Company, Walnut Water Company, Santa Ditch Company, San Gabriel Valley Protective Association, Incorporated, and San Gabriel Valley Water Users Association, Incorporated; now, therefore, be it

*Resolved*, That the Chamber of Commerce of the city of Long Beach hereby requests Senator Frank F. Merriam to introduce said bill of said San Gabriel Valley Protective Association, Incorporated, for passage by the Legislature of the State of California; and that the president and secretary are hereby authorized and directed to sign a petition to the Legislature for the passage of said bill and to affix the name and official seal to said petition; and be it further

*Resolved*, That the secretary be, and he is hereby instructed to transmit a certified copy of this resolution to Honorable Frank F. Merriam to assist in passage of said bill of said San Gabriel Valley Protective Association, Incorporated, by the Legislature of the State of California, and to the honorable Morgan Keaton.

Approved this ninth day of April, 1929.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
SACRAMENTO, April 16, 1929.

*To the Senate of the State of California.*

Senate Bill No. 152 is returned without my approval.

The purpose of the introduction of this bill was to clarify the statutes with reference to the construction and equipping of buildings on the new site for the State Teachers College at San Diego. Both the Legislative Council and the Attorney General's office have advised me that in drafting the bill not all of the necessary amendments were included, and that the bill, therefore, does not give effect to the purpose desired.

The author, Senator Mueller, agrees that my approval of the bill should be withheld, as another bill is to be introduced in this session of the Legislature to clarify the statute in question.

Respectfully submitted

Any unencumbered surplus remaining in said fund on June thirtieth shall be transferred to the general fund of the state.

SEC. 6. Upon receipt of said application and of said fee, it shall be the duty of the registrar forthwith and within ten days to issue a license to the applicant permitting him to engage as a contractor under the terms of this act for the balance of the fiscal year following the application. The license issued under this act shall be signed by the licensee, shall be nontransferable, and shall be exhibited by him upon demand.

SEC. 7. All licenses issued under the provisions of this act shall lapse and expire on June thirtieth of each year.

SEC. 11. In case the judgment provides for suspension of the license, the registrar shall renew the license on proof that such judgment has been fully satisfied in so far as the same is based on the act or neglect of the licensee which was involved in said judgment of suspension. In case the license shall have been canceled by the court, it shall not be renewed or reissued within a period of one year after the entry of said judgment, or in case of an appeal, within one year after the termination thereof, and then only in case it shall appear to the satisfaction of the registrar that all loss occurring, due to the act or neglect of the licensee which was involved in said judgment, has been fully satisfied.

Such undertaking shall be in favor of the people of the State of California and be conditioned upon the faithful performance of all the obligations of such appellant or aggrieved person as a contractor. Such undertaking shall be for the benefit of any person having dealings with such appellant or aggrieved person as a contractor, and any such person so dealing with the same shall have the right to commence suit thereon in his own name against said contractor and his sureties. The clerk of the court wherein said judgment has become final shall transmit to the registrar within ten days thereafter, an abstract of said judgment of suspension or cancellation, as the case may be, upon such form as the registrar shall prescribe.

SEC. 13. Any person, firm, copartnership, corporation, association, or other organization, acting in the capacity of contractor within the meaning of this act, without a license as herein provided, shall upon conviction thereof, if a person, be punished by a fine of not to exceed five hundred dollars, or by both such fine and imprisonment, in the discretion of the court. The same penalties shall apply upon conviction to any member of a copartnership, or to any construction managing or directing

officer of any organization consenting to, participating in, or aiding or abetting, any such violation of this act.

SEC. 14. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

SEC. 15. All laws, or parts of laws, in conflict with the provisions of this act shall be, and the same are hereby repealed.

"SECTION 1. Section 2 of the county improvement act of 1921, approved June 3, 1921, as amended, is hereby amended to read as follows:

Sec. 2. The board of supervisors may, in its resolution declaring its intention to order work done or improvements made or by separate resolution, declare its intention to order that the expenses of maintaining and operating any or all of said improvements or any or all other existing improvements such as are permitted to be constructed herein, including the cost of necessary repairs, replacements, fuel, power, electrical current, care, supervision, and any and all other items necessary for the proper maintenance and operation thereof, shall be assessed, either partly or wholly, upon the lands lying within the district to be benefited by and to be assessed to pay the cost of the construction of said improvement, or upon such district as the board of supervisors shall determine will be benefited by the maintenance and operation of the improvements proposed to be maintained; the amounts so assessed to be levied and collected in the same manner and by the same officers as taxes for county purposes are levied and collected. Said resolution shall describe the boundaries of the district benefited and to be assessed for such maintenance and operation (which district shall hereafter in this act be designated and referred to as the maintenance district), or if said improvements or any part thereof to be maintained be constructed in the same proceeding, it may describe said district as being the same boundaries as those of the district to be assessed for the cost of constructing said improvement, which district in either case may be designated by a name by which it may thereafter be referred to in all subsequent proceedings, including proceedings for the levy and collection of taxes.

At any time not later than the hour for hearing objections to the proposed work as provided in said improvement act of 1911, or at any time not later than the time fixed in the resolution of intention for hearing of objections, if the resolution of intention provides for maintenance only, any person permitted by the provisions of said act to make written protest against the proposed work or against the extent of the district to be assessed therefor, or both, may make like protest and in like manner against the ordering of the formation of the maintenance district or against the extent of said maintenance district, or both, at the time set for hearing protests, as prescribed in said act. The board of supervisors, in addition to hearing protests against the proposed work or improvement and the extent of the district to be assessed therefor, shall hear and pass upon all protests against the formation of the maintenance district and against the extent thereof, and its decision shall be final and conclusive; *provided*, that, when the board of supervisors finds that the protest against the formation of the maintenance district is made by the owners of more than one-half of the area of the property included within such district, no further proceedings shall be taken for a period of six months from the date of the decision of the board of supervisors on said hearing, unless said protests be overruled by an affirmative vote of four-fifths vote of the members of the board of supervisors. The board of supervisors may adjourn said hearing from time to time.

In the event that the board of supervisors, in its resolution of intention, shall declare its intention to order a maintenance district formed, the notice of improvement provided for in said improvement act of 1911 shall likewise give notice of such declaration of intention and that protests against the same may be filed and will be heard in accordance with the provisions of this act.

The board of supervisors shall be deemed to have acquired jurisdiction to order that such a maintenance district be formed to be assessed to pay the costs of maintaining and operating the improvement constructed at the same time or any or all other existing improvements such as are permitted to be constructed herein.

and in the same manner prescribed in said improvement act of 1911 for the acquiring of jurisdiction to order the construction of improvements, and it may thereupon order the formation of such a maintenance district for such purpose, which order may be contained in the resolution ordering the construction of work or improvements in those cases where such work or improvement is provided to be done in the resolution of intention.

Thereupon a copy of said resolution ordering the formation of the maintenance district shall be filed in the office of the county assessor and the county assessor shall thereafter, in making up the assessment roll, segregate the property included within such district on the assessment roll under the designation contained in said resolution. The board of supervisors shall thereafter, in each year, prior to the time of fixing the county tax rate, estimate the cost of maintaining and operating the said improvements to be maintained and operated within said district during the ensuing year. Said board shall decide whether or not the cost of the same shall be borne wholly or partially by the said maintenance district and shall, in addition to all other taxes, fix a special tax rate for the lands within said assessment district sufficient to raise an amount of money to cover the expense of maintaining said improvements during the ensuing year, or such portion of said amount as the board of supervisors shall determine shall be borne by said district, and the board of supervisors shall levy a special assessment tax each year upon the lands in such district sufficient to pay such expense or said portion of such expense. Such special assessment tax shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes and when collected shall be paid into the county treasury to the credit of the fund of such maintenance district and be used for the payment of the expenses of such district, and said board shall have the power to control and order the expenditure thereof for said purposes.

The board of supervisors may contribute toward the cost of such work or maintenance and shall have the power in its discretion to temporarily transfer moneys to said maintenance district fund from other funds in which such moneys are not immediately needed, the money so transferred to be used for the purposes herein provided and to be retransferred therefrom out of the first available receipts.

The maintenance district in this section provided for may include property lying within an incorporated city or cities; *provided*, that the consent of the legislative body of such incorporated city or cities, expressed by resolution, to the formation of such district shall first be obtained before the resolution of intention is adopted by the board of supervisors."

#### SENATE CONCURRENT RESOLUTION No. 24.

Relative to salmon fishing on the Pacific Coast, and directing the State Fish and Game Commission to confer and cooperate with the states of Oregon, Washington, and with the United States Department of Fisheries, relative to the control of salmon fishing.

WHEREAS, The reports of the Fish and Game Commission of the State of California show that for some years last past the amount of salmon taken in the waters of the State of California has been diminishing, and that one of the chief causes thereof has been the excessive use of trolling, both adjacent to and off the coasts of California, Oregon and Washington; and,

WHEREAS, It has been reported that by reason of the fact that a part of said trolling activities have been conducted so far off-shore that no state, acting alone, has ample jurisdiction to regulate, prohibit or control the said fishing by trolling, and that millions of immature salmon are taken in their natural feeding grounds in this manner, thereby reducing the annual catch of this valuable food fish; now, therefore, be it

Resolved by the Senate, The Assembly concurring, That the Fish and Game Commission of the State of California, be, and is hereby directed to confer with the proper officials of the states of Oregon, and Washington, and also with the United States Department of Fisheries, to the end that a comprehensive plan for the protection and control of the salmon industry may be outlined, and to report to the Legislature at the next regular session its findings and recommendations.
